

# **.146x48 OVERSIZE 6-48 SCREW SHOP KIT - BROWNELLS OVERSIZE .146 -48 SCREW SHOP KIT**

[Gunsmith Tools](#) > [Sight & Scope Installation Tools](#) > [Replacement Sight Screws](#)

## **Saves Your "Tail Feathers" If A Hole Gets Stripped**

Slightly larger in diameter than the common 6-48 scope base mounting screw. Most holes "ruined" while drilling or tapping can be fixed; just retap to .146"-48 and install. No need to redrill base or gun. Thanks to Doug Knowt for his tip. [Click Here](#) for taps.

# Safety Instruction Guide for .146x48 Oversize 648 Screw Shop Kit

## Introduction

Thank you for choosing the .146x48 Oversize 648 Screw Shop Kit from Brownells. This kit is designed to provide a solution for fixing holes that have been damaged during drilling or tapping. It is essential to follow safety instructions to ensure safe and effective use of this product.

## General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Keep out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear before use.
- Use appropriate personal protective equipment (PPE) such as safety goggles and gloves when handling tools and screws.
- Be aware of your surroundings and ensure a clean working area to prevent accidents.

## Specific Safety Precautions for Use

- Always ensure that the screw size matches the specifications of your project.
- When retapping holes, ensure that the drill and tap are aligned correctly to avoid further damage.
- Avoid excessive force during installation to prevent stripping of the screw or damage to the base.
- If you experience resistance while installing, stop and reassess to prevent breakage or accidents.
- Dispose of any damaged screws or tools safely to avoid injury.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials, including the screws, taps, drill, and any required PPE.
- Ensure the work area is clean and welllit.

### 2. Retapping Holes:

- Select the appropriate taper tap for the hole you wish to retap.
- Insert the taper tap into the drill and align it with the existing hole.
- Slowly drill into the hole, applying consistent pressure without forcing the tap.

### 3. Installing Screws:

- Choose the correct screw length and type for your application.
- Align the screw with the retapped hole.
- Use a screwdriver to gently turn the screw into place. Avoid using excessive force.
- If resistance is felt, stop and check for proper alignment.

### 4. PostInstallation:

- Once the screws are installed, check for tightness but do not overtighten.
- Inspect the installation to ensure stability and safety.

## **Disposal Instructions**

- Dispose of any unused or damaged screws, taps, and packaging materials in accordance with local waste disposal regulations.
- Do not dispose of screws or tools in a manner that may cause injury to others.

## **Contact Information for Further Support**

For any safety inquiries or further information regarding the product, please refer to the manufacturer's contact details provided on the packaging or product documentation.

By adhering to these safety instructions, you can ensure that your experience with the .146x48 Oversize 648 Screw Shop Kit is safe and effective. Thank you for your attention to safety, and enjoy your project!
