

"WHEELS-N-POLISH" - 6" "WHEELS-N-POLISH" KIT

[Gunsmith Tools & Supplies](#) > [Metal Prep & Coloring](#) > [Polishing Tools & Accessories](#) > [Polishing Wheels](#)

All You Need To Get Started Right

"What do I need to start polishing guns?" These kits make getting going easy. With them, you can start polishing and the money from those jobs will help pay for a super, top-of-the-line setup. The Kits include both stitched and loose muslin wheels plus two Polish-O-Ray® grits and our Bluing Instruction book that shows you how, and when, to use those wheels and grits to achieve the look wanted. WHICH KIT, 6" or 8"? If you have a 1/3 or 1/2" hp, 1800 rpm motor, buy the 6" Kit. If your 1800 rpm motor has 3/4" to 1 hp, pick the 8". (A small motor can't pull large wheels.)

WHEELSNPOLISH 6" KIT Safety Instruction Guide

Introduction

Thank you for choosing the WHEELSNPOLISH 6" Kit. This guide provides essential safety instructions to ensure the safe use of this product. Please read through the entire document before using the kit to familiarize yourself with the safety precautions and proper usage instructions.

General Safety Guidelines

- Always read and follow the instructions provided in this guide.
- Ensure that the product is used for its intended purpose only.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for any signs of wear or damage before use.
- Use protective gear, such as safety goggles and gloves, while using the kit.
- In case of an emergency or accident, seek medical attention immediately.

Specific Safety Precautions for Use

- **Electrical Safety:**
 - Ensure that your motor is compatible with the WHEELSNPOLISH kit specifications. Use a 1/3 or 1/2" hp, 1800 rpm motor for the 6" kit and a 3/4" to 1 hp motor for the 8" kit.
 - Do not use the kit with a motor that is not specified, as it may lead to equipment failure or personal injury.
- **Operational Safety:**
 - Always ensure that the work area is clean and free from clutter before starting.
 - Never leave the equipment running unattended.
 - Keep hands and loose clothing away from moving parts during operation.
- **Material Safety:**
 - Use the PolishORay grits only as instructed. Mixing or using incorrect grits may lead to unsatisfactory results or equipment damage.
 - Dispose of any used materials in accordance with local regulations.

Instructions for Installation and Usage

1. Preparation:

- Gather all components of the kit: 6 Loose Muslin wheels, 6 Stitched Muslin wheels, 1 tube of 240 Grit PolishORay, 1 tube of 400 Grit PolishORay, and the Instruction Booklet.
- Ensure that your motor is securely mounted and ready for use.

2. Installation:

- Attach the Muslin wheels to the motor arbor. Ensure they fit snugly and securely.
- Follow the instructions in the Instruction Booklet for specific details on wheel attachment.

3. Usage:

- Select the appropriate grit based on the polishing needs. Start with the coarser grit (240) and progress to the finer grit (400) for a polished finish.
- Apply the PolishORay sparingly to the wheels before starting the motor.
- Use the wheels on the item being polished, applying gentle pressure and moving steadily to avoid uneven polishing.

4. PostUse:

- Turn off the motor and unplug it before changing wheels or performing maintenance.
- Clean the wheels and workspace after use to maintain equipment and ensure safety for future use.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local waste disposal regulations.
- Recycle packaging materials where possible.

Contact Information for Further Support

For further assistance or inquiries regarding the WHEELSNPOLISH 6" Kit, please refer to the manufacturer's contact details provided with the product.

By following these safety instructions, you can ensure a safe and effective polishing experience with the WHEELSNPOLISH 6" Kit. Thank you for your attention to these important guidelines.
