

# SCOPE ALIGNMENT RODS - 1" SCOPE ALIGNMENT RODS

[Gunsmith Tools & Supplies](#) > [Sight & Scope Installation Tools](#) > [Scope Alignment Rods](#)

## Instantly Aligns; Prevents "Kinked", Marred Scopes

Easily and quickly align scope and rings with perfect accuracy before mounting and "dinging" the scope. Clamp one rod in each ring; if the points don't touch, they're out of alignment. The cause could be mismatched rings, the wrong bases, bases that need shimming or a "tweaked" action. Well worth the small cost and time required to prevent damaging a scope.

## Attributes

- Name: [1" SCOPE ALIGNMENT RODS](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 080730000
- Mfr. No.:

# SCOPE ALIGNMENT RODS Safety Instruction Guide

## Introduction

Thank you for choosing the SCOPE ALIGNMENT RODS. These rods are designed to help you easily and accurately align your scope and rings before mounting. This guide provides essential safety instructions to ensure safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always read and understand the instructions before using the SCOPE ALIGNMENT RODS.
- Ensure that the workspace is clean and free from distractions.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the rods before use for any signs of damage or wear.
- Use the rods only for their intended purpose—aligning scopes and rings.
- Follow all local regulations regarding the use of firearms and related equipment.

## Specific Safety Precautions for Use

### • Hazard Identification:

- Misalignment can lead to improper scope installation, affecting accuracy and safety.
- Using damaged or worn rods may result in inaccurate alignment.

### • Avoiding Hazards:

- Ensure that the rods are securely clamped in each ring before checking alignment.
- Do not force the rods into the rings; if they do not fit, check for compatibility.
- If the alignment points do not touch, investigate potential causes such as mismatched rings or incorrect bases.
- Do not use the rods if they show signs of damage, such as bends or cracks.

### • Age Specific Warnings:

- This product is not intended for use by individuals under the age of 18 without adult supervision.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and ensure a clear workspace.
- Verify that your scope and rings are compatible with the SCOPE ALIGNMENT RODS.

### 2. Installation:

- Clamp one SCOPE ALIGNMENT ROD in each ring of your scope.
- Ensure that the rods are securely held in place.

### 3. Checking Alignment:

- Once both rods are in place, check to see if the points of the rods touch.
- If the points do not touch, this indicates that the scope is out of alignment.

### 4. Troubleshooting:

- If misalignment occurs, check for the following:
  - Mismatched rings.
  - Incorrect bases.
  - Bases that may require shimming.
  - A "tweaked" action that may need adjustment.
- Make necessary adjustments and repeat the alignment check.

## 5. Final Steps:

- Once alignment is confirmed, proceed with mounting the scope following the manufacturer's instructions.
- Remove the SCOPE ALIGNMENT RODS carefully from the rings after use.

## Disposal Instructions

- Dispose of the SCOPE ALIGNMENT RODS responsibly.
- If the rods are damaged beyond use, consider recycling the aluminum material where facilities exist.
- Follow local regulations for disposal of nonfood products.

## Contact Information for Further Support

For any questions or concerns regarding the SCOPE ALIGNMENT RODS, please refer to the provided documentation or contact the manufacturer directly through available channels.

Thank you for prioritizing safety and accuracy in your scope installation. Enjoy your shooting experience!
