

S&W CYLINDER & HAND WINDOW FILES - GROBET FILE CO. OF AMERICA INC S&W HAND WINDOW FILE

[Gunsmith Tools](#) > [Handgun Tools](#) > [Hones & Files](#)

Only Files Available To Do This Job Right

When replacing the cylinder stop or hand in a S&W revolver, you may have to open up the "window" in the frame to accept the new part. These double-ended, offset files, will do the job.

Safety Instructions for S&W Cylinder & Hand Window Files

Introduction

Thank you for choosing the S&W Cylinder & Hand Window Files by Grobet File Co. of America Inc. This guide provides essential safety instructions to ensure the safe use of these tools. Please read and understand this document before using the product.

General Safety Guidelines

- Always use the files in accordance with the manufacturer's instructions.
- Inspect the files for any damage before each use. Do not use damaged files.
- Keep the files out of reach of children and vulnerable individuals.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling and using the files.
- Ensure that the work area is clean and free of hazards to prevent accidents.
- Do not use the files for any purpose other than intended.

Specific Safety Precautions for Use

- Ensure that the file is securely held during use to prevent slipping.
- Avoid excessive force when filing; let the file do the work.
- Do not use the files on materials for which they are not designed.
- Keep fingers and hands away from the filing area to prevent injury.
- Be aware of your surroundings and ensure that no one is in the immediate area when using the files.

Instructions for Installation and Usage

Installation

1. Identify the part you need to replace (cylinder stop or hand).
2. If necessary, open the "window" in the frame to accommodate the new part.
3. Select the appropriate file:
 - Use the Cylinder Stop File (6" long) for general filing.
 - Use the Hand Window File (6¾" long), with one end for J Frame and the other for K, L, and N Frames.
4. Carefully file the area as needed, ensuring to maintain control of the file.

Usage

1. Hold the file with a firm grip, using both hands if necessary for stability.
2. Position the file at the correct angle to the work surface to achieve the desired result.
3. Apply light, even pressure while filing to avoid damaging the workpiece.
4. Regularly check the progress and adjust your technique as needed.
5. Clean the file after use to remove any debris or filings.

Disposal Instructions

- Dispose of the files in accordance with local regulations.
- Do not dispose of files in regular household waste if they are damaged or broken; check for specific disposal guidelines.
- Ensure that any broken pieces are safely contained to prevent injury.

Contact Information for Further Support

For any questions or concerns regarding the safety and use of the S&W Cylinder & Hand Window Files, please reach out to the appropriate contact point provided by the manufacturer.

Thank you for your attention to these safety instructions. Your safety is our priority.
