POWER CUSTOM BRASS MUZZLE CROWNING LAP NONHANDLED SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the POWER CUSTOM BRASS MUZZLE CROWNING LAP NONHANDLED. This product is designed to help you achieve a beautifully finished crown on your pistol and rifle barrels. To ensure your safety and the proper use of this product, please read the following safety instructions carefully.

General Safety Guidelines

- Always read and understand the instructions before using the product.
- Use the product only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product for damage before each use. Do not use if damaged.
- Ensure you are in a wellventilated area when using the product.
- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves.
- Be aware of your surroundings and ensure that no one is in your immediate vicinity when using the product.
- Report any unsafe conditions or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Ensure that your hand drill is compatible with the brass laps.
- Use only the recommended 600 grit silicon carbide abrasive for best results.
- Do not exceed the recommended speed for your hand drill to avoid accidents.
- Always secure the barrel properly before starting the lapping process.
- Do not apply excessive pressure while lapping; let the abrasive do the work.
- Avoid inhaling dust generated during the lapping process. Use a dust mask if necessary.
- Store the product in a dry place and ensure it is properly cleaned after use.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials: the brass laps, 600 grit silicon carbide abrasive, and your hand drill.
- Ensure that the drill is unplugged before attaching the brass lap.

2. Attaching the Lap:

- Select the appropriate size brass lap for your barrel's bore.
- Securely attach the brass lap to the hand drill.

3. Applying Abrasive:

- Apply a small amount of silicon carbide abrasive to the lap.
- Ensure even coverage of the abrasive on the lap.

4. Lapping Process:

- Position the barrel securely in a stable position.
- Start the drill at a low speed to avoid excessive friction.

- Gradually increase the speed as needed, but do not exceed the drill's recommended RPM.
- Move the lap in and out of the bore gently, allowing the abrasive to work effectively.
- Periodically check the crown to ensure a smooth finish.

5. Finishing Up:

- Once the desired finish is achieved, turn off the drill and remove the lap.
- Clean the barrel and the lap thoroughly to remove any residual abrasive.

Disposal Instructions

- Dispose of any used abrasives and cleaning materials according to local regulations.
- Recycle the brass laps if applicable, or dispose of them in accordance with local waste management guidelines.

Contact Information for Further Support

For any safety inquiries related to this product, please refer to the manufacturer's contact information provided with the product packaging or on the official website.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safe and effective experience while using the POWER CUSTOM BRASS MUZZLE CROWNING LAP NONHANDLED.
