# POWER CUSTOM BRASS MUZZLE CROWNING LAP NONHANDLED USER GUIDE

## Introduction

Thank you for choosing the POWER CUSTOM BRASS MUZZLE CROWNING LAP NONHANDLED. This product is designed to help you achieve a beautiful, finished crown on all pistol and rifle barrels. Please read this guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Always use the product in a wellventilated area.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product for any damage before use. Do not use if damaged.
- Wear appropriate personal protective equipment (PPE) such as safety goggles and gloves.
- Follow all instructions provided in this guide to minimize risks.
- Report any unsafe products or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Ensure your hand drill is compatible with the laps before starting.
- Use only the recommended 600 grit silicon carbide abrasive for best results.
- Do not exceed the recommended speed of your drill to avoid overheating.
- Avoid applying excessive pressure while lapping to prevent damage to the barrel.
- Always maintain a firm grip on the tool while in use to prevent slips and accidents.
- Keep hands and clothing away from the rotating parts of the drill.

## Instructions for Installation and Usage

### Installation

#### 1. Prepare Your Drill:

- Ensure your hand drill is clean and in good working condition.
- Select a suitable drill bit compatible with the laps.

#### 2. Insert the Lap:

- Choose the appropriate lap size for your barrel.
- Securely insert the lap into the drill chuck and tighten it.

#### 3. Attach the Abrasive:

- Apply a small amount of 600 grit silicon carbide abrasive to the lap.

### Usage

#### 1. Position the Barrel:

- Securely position the barrel in a stable work area.
- Ensure it is clamped or held firmly to prevent movement during lapping.

#### 2. Start the Drill:

- Begin at a low speed to ensure control.
- Gradually increase the speed as needed, but do not exceed the recommended limit.

### **3. Lapping Process:**

- Apply light, even pressure while moving the lap in a circular motion around the crown.
- Continue lapping until the desired finish is achieved, checking progress regularly.

### **4. Clean Up:**

- Once finished, turn off the drill and carefully remove the lap.
- Clean any remaining abrasive from the barrel and laps.

## **Disposal Instructions**

- Dispose of any used abrasive material and packaging in accordance with local regulations.
- If the product is damaged or no longer usable, please follow local waste disposal guidelines for hazardous materials.

## **Contact Information for Further Support**

For any questions or concerns regarding the POWER CUSTOM BRASS MUZZLE CROWNING LAP NONHANDLED, please reach out to the manufacturer or your local retailer for assistance. Always ensure you have the latest safety information and product updates.

By following these guidelines, you can ensure a safe and effective experience while using the POWER CUSTOM BRASS MUZZLE CROWNING LAP NONHANDLED. Thank you for your attention to safety and compliance with the EU General Product Safety Regulation.
