

1917 ENFIELD/P-14 RIFLE ACTION WRENCH & HEAD - COMPLETE

1917 ENFIELD/P-14 ACTION WRENCH

[Gunsmith Tools & Supplies](#) > [General Gunsmith Tools](#) > [Wrenches](#) > [Action Wrenches & Components](#)

The only commercially available action wrench system that surrounds and supports the receiver ring and recoil lug to distribute potentially damaging torque forces equally. The solid steel base has a unique, machined relief to clear the recoil lug on most Mauser-type bolt action rifles and, the individual, bolt-on Heads are machined to provide an exact fit around and against the receiver ring or barrel nut for each of the firearm models listed. Together, they support the receiver in a ring of steel and greatly increase the amount of surface gripping area to totally eliminate twisted bolt ways or damaged, ruined receivers. This is the most advanced, complete, professional-quality, Action Wrench System. With it, you can prevent expensive receiver damage on MOST popular rifle actions, including military models, plus, models for selected handguns. Machined cut in head clears projection on receiver ring. Also fits many commercial variations, such as the Remington Model 30.

1917 ENFIELD/P14 RIFLE ACTION WRENCH & HEAD SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the 1917 ENFIELD/P14 RIFLE ACTION WRENCH & HEAD. This product is designed to provide safe and effective support for your firearm maintenance needs. Please read this safety instruction guide carefully to ensure the safe use of this product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the action wrench is used only by individuals who are knowledgeable about firearms and their maintenance.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the action wrench.
- Keep the action wrench out of reach of children and unauthorized users.
- Regularly inspect the action wrench for signs of wear or damage before each use.
- Do not use the action wrench for any purpose other than what it is intended for.
- Follow all local laws and regulations regarding firearm maintenance and safety.

Specific Safety Precautions for Use

- Before using the action wrench, ensure that the firearm is completely unloaded and that the chamber is clear.
- Use the correct wrench head that corresponds to your specific firearm model to avoid damage.
- Do not apply excessive force when using the action wrench, as this may cause damage to the firearm or the wrench itself.
- Ensure that the wrench is securely attached and that it fits properly around the receiver ring or barrel nut before applying torque.
- Avoid using the action wrench in wet or damp conditions, as this may affect grip and control.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the workspace is clean, dry, and welllit.
- Gather all necessary tools and equipment, including the appropriate wrench head for your firearm model.

2. Selecting the Wrench Head:

- Choose the correct bolt on head that matches the receiver ring or barrel nut of your firearm model.
- Ensure that the head is free from debris and damage before installation.

3. Attaching the Wrench Head:

- Align the selected wrench head with the action wrench base.
- Secure the wrench head by tightening the bolts provided, ensuring a snug fit.

4. Using the Action Wrench:

- Place the action wrench around the receiver ring or barrel nut of the firearm.

- Ensure that the wrench is properly seated and that it surrounds the receiver ring or barrel nut evenly.
- Apply torque slowly and steadily, monitoring the resistance. If excessive force is required, reassess the fit.

5. PostUse Care:

- After use, clean the action wrench and its components to remove any debris or residue.
- Store the action wrench in a safe, dry place, away from children and pets.

Disposal Instructions

- Dispose of the action wrench in accordance with local regulations regarding metal recycling and waste disposal.
- Do not dispose of the action wrench in household waste.
- If the action wrench is damaged beyond repair, contact your local recycling center for proper disposal options.

Contact Information for Further Support

For any safety inquiries, product support, or to report unsafe conditions, please seek assistance from an authorized firearms dealer or contact the manufacturer directly. Always ensure that you have the latest information regarding product recalls or safety notices.

Thank you for your attention to safety and for choosing the 1917 ENFIELD/P14 RIFLE ACTION WRENCH & HEAD. Your responsible use of this product helps ensure a safer environment for all firearm enthusiasts.
