

# REMINGTON 700 RIFLE ACTION WRENCH & HEAD - COMPLETE REMINGTON 700 ACTION WRENCH

[Gunsmith Tools & Supplies](#) > [General Gunsmith Tools](#) > [Wrenches](#) > [Action Wrenches & Components](#)

The only commercially available action wrench system that surrounds and supports the receiver ring and recoil lug to distribute potentially damaging torque forces equally. The solid steel base has a unique, machined relief to clear the recoil lug on most Mauser-type bolt action rifles and, the individual, bolt-on Heads are machined to provide an exact fit around and against the receiver ring or barrel nut for each of the firearm models listed. Together, they support the receiver in a ring of steel and greatly increase the amount of surface gripping area to totally eliminate twisted bolt ways or damaged, ruined receivers. This is the most advanced, complete, professional-quality, Action Wrench System. With it, you can prevent expensive receiver damage on MOST popular rifle actions, including military models, plus, models for selected handguns. Two-piece head completely encircles cylindrical style action for 100% surface contact. Upper Head indexes on the forward guard screw and positions recoil lug properly during barrel installation. Includes both heads and longer bolts. Fits all Remington actions with receiver diameter of 1.355". Double-angle design accepts factory lug or Tubb and Shilen tapered design.

# REMINGTON 700 RIFLE ACTION WRENCH Safety Instructions

## Introduction

Thank you for choosing the REMINGTON 700 RIFLE ACTION WRENCH & HEAD COMPLETE REMINGTON 700 ACTION WRENCH. This product is designed to provide a safe and effective way to support and work on your firearm. To ensure your safety and the longevity of your product, please carefully read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- **Product Safety:** Always ensure that the action wrench is used in accordance with the manufacturer's instructions to prevent accidents and injuries.
- **Enhanced Recalls:** Stay informed about any recalls related to this product. If notified, take immediate action as directed.
- **Online Shopping:** When purchasing online, ensure that the seller complies with safety regulations and provides necessary product information.
- **Special Consumer Focus:** This product is intended for use by individuals who are knowledgeable about firearm maintenance. Keep it out of reach of children.
- **EU Contact Point:** For safety inquiries, refer to the appropriate EU contact point for your region.
- **Rapid Alerts:** Regularly check the EU Safety Gate platform for updates regarding the safety of this product.

## Specific Safety Precautions for Use

- Always ensure the firearm is unloaded before using the action wrench.
- Wear appropriate safety gear, including safety glasses and gloves, to protect against potential injuries.
- Inspect the action wrench and heads for any signs of damage before use. Do not use if damaged.
- Use the action wrench only with compatible Remington actions with a receiver diameter of 1.355 inches.
- Do not exceed the recommended torque specifications to avoid damaging the firearm or the wrench.
- Ensure that the wrench is properly secured to the firearm before applying torque.
- Keep hands and body clear of the wrench's moving parts during use.
- Store the action wrench in a safe place when not in use, away from children and unauthorized individuals.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure the firearm is completely unloaded and safe to work on.
- Gather all necessary tools and safety equipment.

### 2. Installation of the Action Wrench

- Place the action wrench on a stable surface.
- Select the appropriate head that fits your firearm model.
- Align the head with the receiver ring or barrel nut.
- Secure the head onto the action wrench using the provided bolts.

### 3. Using the Action Wrench

- Position the firearm within the action wrench, ensuring it is properly seated.
- Index the Upper Head on the forward guard screw to position the recoil lug correctly.

- Apply torque gradually, ensuring even distribution of force. Do not exceed the recommended torque limits.
- Monitor the alignment and fit during the process to ensure no damage occurs.

#### **4. PostUse**

- Once the work is completed, carefully remove the action wrench from the firearm.
- Inspect both the firearm and the action wrench for any signs of wear or damage.

## **Disposal Instructions**

- Dispose of any packaging materials in accordance with local waste disposal regulations.
- If the action wrench becomes damaged beyond use, dispose of it in a manner that complies with local regulations for metal recycling or hazardous waste.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the REMINGTON 700 RIFLE ACTION WRENCH, please refer to the manufacturer's website or contact the retailer from which the product was purchased.

Thank you for prioritizing safety in your firearm maintenance practices.
