

REMINGTON 788 RIFLE ACTION WRENCH & HEAD - COMPLETE REMINGTON 788 ACTION WRENCH

[Gunsmith Tools & Supplies](#) > [General Gunsmith Tools](#) > [Wrenches](#) > [Action Wrenches & Components](#)

The only commercially available action wrench system that surrounds and supports the receiver ring and recoil lug to distribute potentially damaging torque forces equally. The solid steel base has a unique, machined relief to clear the recoil lug on most Mauser-type bolt action rifles and, the individual, bolt-on Heads are machined to provide an exact fit around and against the receiver ring or barrel nut for each of the firearm models listed. Together, they support the receiver in a ring of steel and greatly increase the amount of surface gripping area to totally eliminate twisted bolt ways or damaged, ruined receivers. This is the most advanced, complete, professional-quality, Action Wrench System. With it, you can prevent expensive receiver damage on MOST popular rifle actions, including military models, plus, models for selected handguns. Two-piece head completely encircles cylindrical style action for 100% surface contact. Bottom Head indexes on the forward guard screw for extra holding power. Includes both heads and longer bolts.

REMINGTON 788 RIFLE ACTION WRENCH Safety Instruction Guide

Introduction

Thank you for purchasing the REMINGTON 788 RIFLE ACTION WRENCH. This product is designed to provide a safe and effective solution for handling your firearm's action. It is important to follow the safety guidelines and instructions outlined in this guide to ensure safe usage and to prevent any accidents or injuries.

General Safety Guidelines

- Always handle the REMINGTON 788 RIFLE ACTION WRENCH with care.
- Ensure that the firearm is unloaded before using the action wrench.
- Keep the action wrench and firearms out of reach of children and unauthorized users.
- Do not use the action wrench if it appears damaged or defective.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses, when using the action wrench.
- Be aware of your surroundings and ensure that you are in a safe environment when using the action wrench.

Specific Safety Precautions for Use

- Ensure that the action wrench is compatible with your specific firearm model before use.
- Follow the manufacturer's instructions for installation and usage carefully.
- Use the action wrench only for its intended purpose, which is to support the receiver ring and recoil lug.
- Do not apply excessive force when using the action wrench, as this can lead to damage to the firearm or injury.
- If you experience any difficulty while using the action wrench, stop immediately and seek assistance.

Instructions for Installation and Usage

1. Preparation:

- Ensure that your firearm is completely unloaded and in a safe condition.
- Gather all necessary tools and components, including the action wrench and its heads.

2. Installation:

- Select the appropriate bolton head that fits your firearm model.
- Align the head with the receiver ring or barrel nut and secure it in place using the provided bolts.
- Ensure that the head is tightly fastened and does not move.

3. Usage:

- Position the action wrench around the receiver ring and recoil lug.
- Ensure that the bottom head indexes on the forward guard screw for added stability.
- Apply torque evenly and gradually; do not exceed the manufacturer's recommended torque specifications.
- After completing the task, remove the action wrench and inspect the firearm for any signs of damage.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the action wrench becomes unusable or damaged beyond repair, dispose of it responsibly, ensuring that it does not pose a safety risk to others.
