The only commercially available action wrench system that surrounds and supports the receiver ring and recoil lug to distribute potentially damaging torque forces equally. The solid steel base has a unique, machined relief to clear the recoil lug on most Mauser-type bolt action rifles and, the individual, bolt-on Heads are machined to provide an exact fit around and against the receiver ring or barrel nut for each of the firearm models listed. Together, they support the receiver in a ring of steel and greatly increase the amount of surface gripping area to totally eliminate twisted bolt ways or damaged, ruined receivers. This is the most advanced, complete, professional-quality, Action Wrench System. With it, you can prevent expensive receiver damage on MOST popular rifle actions, including military models, plus, models for selected handguns. Two-piece head fits completely around, and locks onto, the barrel nut with lugs on the inside radius of both upper and lower Heads. Round fits older Savage 110, 10 and Striker with round groove nut. Square fits newer 110, 10 and Striker with square groove nut.

# Safety Instruction Guide for the SAVAGE 110 RIFLE ACTION WRENCH & HEAD ROUND HEAD

## Introduction

Thank you for choosing the SAVAGE 110 RIFLE ACTION WRENCH & HEAD ROUND HEAD. This product is designed to provide you with a safe and effective way to work on your firearm. It is important to read and understand the safety instructions outlined in this guide to ensure proper use and to prevent accidents.

## General Safety Guidelines

- Always read and follow the manufacturer's instructions before using the product.
- Ensure that you are familiar with the specific firearm model you are working on.
- Keep the action wrench and heads out of reach of children and unauthorized users.
- Inspect the action wrench and heads for any damage before use. Do not use if damaged.
- Use the action wrench in a wellventilated area to avoid inhalation of any dust or debris.
- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the product.
- Always ensure that the firearm is unloaded before beginning any work.
- Only use the action wrench for its intended purpose as described in this guide.

## Specific Safety Precautions for Use

- Ensure that the action wrench is securely attached to the barrel nut before applying any torque.
- Avoid overtightening, as this can cause damage to the firearm or the action wrench.
- Use the correct head for your specific firearm model to avoid slippage or damage.
- Do not attempt to modify or repair the action wrench or heads. Contact the manufacturer for any necessary repairs.
- Be cautious of sharp edges on the action wrench and heads. Handle with care.
- Always maintain a stable working surface to prevent accidents during use.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure that the firearm is fully unloaded and clear of any ammunition.
- Gather all necessary tools and equipment, including the action wrench and the appropriate head.

### 2. Selecting the Right Head

- Choose the correct head for your firearm model:
  - Round head for older Savage 110, 10, and Striker models with round groove nut.
  - Square head for newer Savage 110, 10, and Striker models with square groove nut.

### 3. Attaching the Head

- Align the head with the barrel nut.
- Securely attach the head to the action wrench by following the manufacturer's instructions.

### 4. Using the Action Wrench

- Place the action wrench around the barrel nut, ensuring a snug fit.
- Apply torque gradually and evenly. Do not exceed recommended torque specifications for your firearm.
- Monitor the fit and ensure that the action wrench remains secure throughout the process.

## 5. PostUse Care

- After use, carefully detach the action wrench and head from the firearm.
- Clean the action wrench and heads to remove any debris or residue.
- Store the action wrench and heads in a safe location, away from children and unauthorized users.

## Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the action wrench or heads in regular household waste.
- Contact local waste management authorities for guidance on proper disposal methods.

## Contact Information for Further Support
