

# 1911 RAIL SWAGING PUNCHES - SINGLE 1911 RAIL SWAGE PUNCH ONLY

[Gunsmith Tools & Supplies](#) > [Handgun Tools](#) > [Slide Tools](#)

## Helps Prevent Frame Rail Damage

Puts downward swaging pressure directly onto the frame rails and not on the frame. Giant steel punches with specially machined steps prevent overpeening and crushed frame rails. Single or Double design allows tightening only the specific rail area required for closer frame-to-slide fit.

# Safety Instruction Guide for 1911 Rail Swaging Punches

## Introduction

Thank you for purchasing the 1911 Rail Swaging Punches. This guide provides essential safety instructions and usage information to ensure your safety and the proper functioning of the product. Please read this guide carefully before using the product.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the punches.
- Keep the work area clean and well-lit to avoid accidents.
- Do not leave the product unattended while in use.
- Store the punches in a safe place, out of reach of children and pets.
- Regularly inspect the punches for wear or damage before use. Do not use damaged products.
- If you encounter any issues or have concerns about the product, discontinue use and seek assistance.

## Specific Safety Precautions for Use

- Use the punches only on compatible 1911 rail models: Government, Commander, and Officers.
- Ensure that the frame is securely positioned before applying downward pressure with the punches.
- Avoid excessive force when swaging to prevent damage to the frame rails.
- Do not modify the punches in any way, as this can compromise safety and effectiveness.
- Always follow the manufacturer's instructions for use and maintenance.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials before beginning the swaging process.
- Ensure the work area is clean, organized, and free from distractions.

### 2. Using the Punch:

- Select the appropriate punch for the specific rail area that requires adjustment.
- Align the punch with the frame rail, ensuring it is positioned correctly.
- Apply downward pressure gradually and evenly on the punch to begin the swaging process.
- Monitor the fit of the frame to slide throughout the process to achieve the desired result.

### 3. Post-Use Care:

- After use, clean the punches to remove any debris or residue.
- Store the punches in a protective case or designated storage area to prevent damage.

## Disposal Instructions

- Dispose of the product in accordance with local regulations.
- If the product is damaged beyond repair, ensure it is disposed of safely to prevent injury.
- Recycle materials where applicable.
