# 1911 Allen Head Grip Screws Safety Instruction Guide

## Introduction

Thank you for choosing the 1911 Allen Head Grip Screws. These screws are designed to enhance the usability and aesthetic of your 1911 Auto pistols by preventing damage to screw heads. This safety instruction guide provides essential information on the safe use, installation, and disposal of the product, ensuring compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always ensure that you are using the product as intended.
- Store the screws in a safe place, out of reach of children and vulnerable individuals.
- Inspect the screws and wrench for any signs of damage before use.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use the appropriate Allen wrench provided with the screws to avoid slipping and potential injury.
- Do not exceed the recommended torque specifications to prevent stripping the screw heads or damaging the pistol.
- Ensure that the screws are compatible with your specific model of 1911 pistol (Government, Commander, Officers).
- Avoid using the screws if they show signs of corrosion or wear.
- Do not modify or alter the screws in any way.

## Instructions for Installation and Usage

### 1. Preparation

- Gather the necessary tools: the provided Allen wrench and a clean workspace.
- Ensure that your pistol is unloaded and safe to work on.

### 2. Installation

- Align the grip panel with the frame of the pistol.
- Insert the Allen head grip screws through the grip panel into the frame.
- Use the Allen wrench to tighten the screws securely, but do not overtighten.

### 3. PostInstallation Check

- After installation, ensure that the grip panel is firmly attached and that the screws are not protruding.
- Check that the screws are not stripped and that they are functioning correctly.

### 4. Usage

- Regularly check the screws for tightness and wear, especially after extensive use.
- If any screw becomes loose, retighten it immediately to ensure safe operation.

## **Disposal Instructions**

- Dispose of any damaged or unusable screws responsibly.
- Follow local regulations for the disposal of metal products.
- Do not throw screws in regular household waste; consider recycling options.

## **Contact Information for Further Support**
