## Extra Surface Area Gives Tremendous Power To Clamp Hold & Even The Tightest Barrel

To complement our "Ring-Of-Steel" Action Wrench System, we've developed the only professional-quality Barrel Vise that will positively clamp and keep even the tightest barrel from turning during removal. Machined from solid steel for durability to service the barrel installation and removal needs of any gunsmith for years and years. Our exclusive four bolt system and extra-wide design generates so much holding force, the Brownells Barrel Vise must be firmly bolted to the stoutest bench or an immovable base to realize its full - potential. Split barrel bushings come in a variety of sizes to fit many popular barrels (and some not-so-common ones) to make this universal Barrel Vise system the very first choice of professional gunsmiths. Steel Bushings provide years of service and have the necessary clamping power to break loose the tightest barrels. Aluminum Bushings also give a strong hold without risk of marring your barrel.

## Attributes

# Safety Instruction Guide for Brownells Barrel Vises with Bushings

## Introduction

Thank you for choosing the Brownells Barrel Vises with Bushings. This product is designed to provide professional quality support for barrel installation and removal. To ensure your safety and the effective use of this product, please read this safety instruction guide carefully.

## General Safety Guidelines

- Ensure that the Barrel Vise is used only for its intended purpose.
- Always follow the manufacturer's instructions for installation and usage.
- Regularly inspect the Barrel Vise and its components for wear or damage.
- Keep the work area clean and free of distractions while using the Barrel Vise.
- Ensure that all tools and accessories are in good working condition before use.
- Store the Barrel Vise in a dry place to prevent rust and deterioration.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the product.

## Specific Safety Precautions for Use

- Use the Barrel Vise only on a stable and secure workbench to prevent tipping or movement.
- Ensure that the Barrel Vise is firmly bolted to the workbench before use.
- Do not exceed the recommended clamping force; excessive force may damage the Barrel Vise or the barrel.
- Be cautious when handling sharp tools or components during installation and removal.
- Avoid placing hands or fingers near the clamping area when the Vise is in use.
- Keep children and pets away from the work area during operation.
- If using aluminum bushings, ensure they are compatible with the barrel to avoid marring.

## Instructions for Installation and Usage

### 1. Installation:

- Choose a sturdy workbench or immovable base for the Barrel Vise.
- Position the Barrel Vise on the work surface.
- Use the provided ½"20 x 2" Allen head bolts to securely fasten the bottom block of the Barrel Vise to the workbench.
- Ensure that the bottom block is drilled and countersunk for proper installation.

### 2. Using the Barrel Vise:

- Select the appropriate bushing size for the barrel you are working with.
- Insert the selected bushing into the top block of the Barrel Vise.
- Place the barrel into the bushing, ensuring a snug fit.
- Tighten the bolts on the Barrel Vise gradually to secure the barrel.
- Monitor the clamping pressure to avoid excessive force.
- Proceed with the installation or removal of the barrel as needed.

### 3. PostUse:

- Carefully release the clamping pressure and remove the barrel from the Vise.

- Clean the Barrel Vise and bushings after use to remove any debris or residue.
- Store the Barrel Vise and its components in a safe, dry location.

## **Disposal Instructions**

- Dispose of any damaged or worn components of the Barrel Vise in accordance with local regulations.
- Recycle metal parts where possible to minimize environmental impact.
- Ensure that any nonrecyclable materials are disposed of responsibly.

## **Contact Information for Further Support**

For any safety inquiries or additional information regarding the Brownells Barrel Vises with Bushings, please reach out to the manufacturer directly.

Thank you for prioritizing safety while using the Brownells Barrel Vises. Your adherence to these guidelines will help ensure a safe and effective experience.
