

BARREL VISES W/ BUSHINGS - BROWNELLS BARREL VISE WITH #14 STEEL BUSHING I.D. M1 CARBINE

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Barrel Vises](#)

Extra Surface Area Gives Tremendous Power To Clamp Hold & Even The Tightest Barrel

To complement our “Ring-Of-Steel” Action Wrench System, we’ve developed the only professional-quality Barrel Vise that will positively clamp and keep even the tightest barrel from turning during removal. Machined from solid steel for durability to service the barrel installation and removal needs of any gunsmith for years and years. Our exclusive four bolt system and extra-wide design generates so much holding force, the Brownells Barrel Vise must be firmly bolted to the stoutest bench or an immovable base to realize its full potential. Split barrel bushings come in a variety of sizes to fit many popular barrels (and some not-so-common ones) to make this universal Barrel Vise system the very first choice of professional gunsmiths. Steel Bushings provide years of service and have the necessary clamping power to break loose the tightest barrels. Aluminum Bushings also give a strong hold without risk of marring your barrel.

Barrel Vise with #14 Steel Bushing I.D. M1 Carbine

Safety Instruction Guide for BARREL VISES W/ BUSHINGS BROWNELLS BARREL VISE WITH #14 STEEL BUSHING I.D. M1 CARBINE

Introduction

Thank you for choosing the BARREL VISES W/ BUSHINGS BROWNELLS BARREL VISE WITH #14 STEEL BUSHING I.D. M1 CARBINE. This product is designed to assist in the secure handling of rifle barrels during maintenance and installation. To ensure safe and effective use, please follow the safety guidelines and instructions outlined in this document.

General Safety Guidelines

- Always read and understand all instructions before using the product.
- Ensure the work area is clean, dry, and welllit.
- Keep the product out of reach of children and vulnerable individuals.
- Use personal protective equipment (PPE) such as safety goggles and gloves when operating the barrel vise.
- Regularly inspect the barrel vise and bushings for signs of wear or damage. Do not use damaged components.
- Follow all local laws and regulations regarding the handling and maintenance of firearms.

Specific Safety Precautions for Use

- Ensure the barrel is properly secured in the vise before performing any work.
- Do not exceed the recommended torque specifications when using tools with the barrel vise.
- Avoid placing fingers or hands near moving parts during operation.
- Be cautious of sharp edges on the vise and bushings.
- Use appropriate bushings that fit the barrel shank diameter to prevent slippage.
- Do not modify or alter the barrel vise or its components.
- Store the barrel vise and bushings in a safe place when not in use.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and components, including the barrel vise, bushings, and Allen head bolts.
- Ensure that the work surface is stable and secure.

2. Selecting the Right Bushing:

- Choose the appropriate bushing based on the barrel diameter. Refer to the specifications provided:
 - Bushings #4, #6, #7, #8, #9, #10, and #11 are included.
 - Additional bushings (#5, #12, #13, #14, #15, and #16) must be purchased separately.

3. Installation:

- Position the bottom block of the barrel vise on the work surface.
- Insert the selected bushing into the bottom block, ensuring it is seated properly.
- Place the barrel into the bushing, aligning it securely.
- Position the top block over the barrel and bushing.

- Insert the ½"20 x 2" Allen head bolts through the top block into the bottom block.
- Tighten the bolts evenly to secure the barrel in place, ensuring not to overtighten.

4. Using the Barrel Vise:

- Perform the necessary work on the barrel while it is securely held in the vise.
- Always maintain a safe distance from moving parts and tools.

5. PostUse:

- Carefully remove the barrel from the vise after completing work.
- Clean the barrel vise and bushings to remove any debris or residue.
- Store the barrel vise and bushings in a dry, safe location.

Disposal Instructions

- Dispose of the barrel vise and its components in accordance with local regulations.
- Do not dispose of the product in general waste. Instead, consider recycling options for metal components where available.

Contact Information for Further Support

For any safety inquiries or concerns regarding the barrel vise, please reach out to the designated EU contact point for assistance. Ensure you have the product details ready for a more efficient response.

By following these safety instructions, you can help ensure a safe and effective experience with your BARREL VISES W/ BUSHINGS BROWNELLS BARREL VISE WITH #14 STEEL BUSHING I.D. M1 CARBINE. Thank you for your attention to safety.
