Extra Surface Area Gives Tremendous Power To Clamp Hold & Even The Tightest Barrel

To complement our “Ring-Of-Steel” Action Wrench System, we’ve developed the only professional-quality Barrel Vise that will positively clamp and keep even the tightest barrel from turning during removal. Machined from solid steel for durability to service the barrel installation and removal needs of any gunsmith for years and years. Our exclusive four bolt system and extra-wide design generates so much holding force, the Brownells Barrel Vise must be firmly bolted to the stoutest bench or an immovable base to realize its full - potential. Split barrel bushings come in a variety of sizes to fit many popular barrels (and some not-so-common ones) to make this universal Barrel Vise system the very first choice of professional gunsmiths. Steel Bushings provide years of service and have the necessary clamping power to break loose the tightest barrels. Aluminum Bushings also give a strong hold without risk of marring your barrel.

Safety Instruction Guide for BARREL VISES W/ BUSHINGS

Introduction

Thank you for choosing the BARREL VISE WITH #15 ALUMINUM BUSHING I.D. FAL. This product is designed to provide a secure and stable platform for barrel installation and removal. To ensure your safety and the proper functioning of the product, please read this safety instruction guide carefully before use.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always inspect the Barrel Vise and bushings for any damage before use.
- Do not use if any components are damaged or missing.
- Keep the work area clean and welllit to prevent accidents.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves.
- Keep children and pets away from the work area.
- Follow all local regulations regarding the use of tools and firearms.

Specific Safety Precautions for Use

- **Clamping Force:** Ensure that the Barrel Vise is securely bolted to a stable workbench or immovable base to prevent movement during use.
- **Bushings:** Use the correct size bushing for the barrel you are working with to avoid damage. Ensure that the bushing is properly seated before clamping.
- **Material Handling:** Be cautious when handling steel and aluminum components, as sharp edges may be present.
- **Torque Specifications:** Do not exceed the recommended torque when tightening bolts to avoid stripping or damaging the threads.
- **Firearm Safety:** Always follow standard firearm safety practices when handling guns and accessories.
- **Heat:** Avoid overheating the Barrel Vise during use, as this can affect the integrity of the materials.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including an Allen wrench and the appropriate size bushings.
- Ensure your work area is clear and organized.

2. Installation:

- Place the Barrel Vise on a sturdy workbench or an immovable base.
- Use the provided ½"20 x 2" Allen head bolts to securely fasten the bottom block of the Barrel Vise to the work surface.
- Ensure that the bottom block is drilled and countersunk for ½" diameter mounting bolts.

3. Using the Barrel Vise:

- Select the appropriate bushing for the barrel you are working with.
- Insert the bushing into the top block of the Barrel Vise.
- Place the barrel into the bushing and ensure a snug fit.
- Tighten the bolts on the Barrel Vise evenly to secure the barrel in place.
- Always check that the barrel is firmly clamped before proceeding with installation or removal.

4. PostUse:

- After use, carefully remove the barrel and clean the Barrel Vise and bushings to remove any debris or residue.
- Store the Barrel Vise and bushings in a dry place to prevent rust or corrosion.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Recycle materials where possible, such as metal components.
- Do not dispose of the product in regular household waste if it contains hazardous materials.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to your local distributor or manufacturer's contact point. Ensure you have the product details on hand when seeking support.

By following these guidelines, you can ensure a safe and effective experience with your BARREL VISE WITH #15 ALUMINUM BUSHING I.D. FAL. Thank you for your attention to safety and for choosing our product.
