

VICE AND BUSHING SETS - STEEL BARREL VISE SET

[Gunsmith Tools & Supplies](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Barrel Vises](#)

To complement our “Ring-Of-Steel” Action Wrench System, we’ve developed the only professional-quality Barrel Vise that will positively clamp and keep even the tightest barrel from turning during removal. Machined from solid steel for durability to service the barrel installation and removal needs of any gunsmith for years and years. Our exclusive four bolt system and extra-wide design generates so much holding force, the Brownells Barrel Vise must be firmly bolted to the stoutest bench or an immovable base to realize its full potential. Split barrel bushings come in a variety of sizes to fit many popular barrels (and some not-so-common ones) to make this universal Barrel Vise system the very first choice of professional gunsmiths. Steel Bushings provide years of service and have the necessary clamping power to break loose the tightest barrels. Aluminum Bushings also give a strong hold without risk of marring your barrel.

VISE AND BUSHING SETS STEEL BARREL VISE SET

Safety Instruction Guide

Introduction

Thank you for purchasing the VISE AND BUSHING SET STEEL BARREL VISE SET. This product is designed to assist gunsmiths in the installation and removal of barrels safely and effectively. Please read this safety instruction guide carefully to ensure safe usage and compliance with relevant safety regulations.

General Safety Guidelines

- Always use the product as intended and according to the manufacturer's instructions.
- Ensure that the workspace is clean and free from clutter before using the barrel vise.
- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves, to protect against potential hazards.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the barrel vise and bushings for any signs of wear or damage before use.
- If you notice any defects or issues with the product, stop using it immediately and consult the manufacturer for guidance.

Specific Safety Precautions for Use

- Ensure that the barrel vise is securely bolted to a stable workbench or immovable base to prevent it from moving during operation.
- Always use the correct bushing size for the barrel being worked on to avoid slippage or damage.
- Do not exceed the recommended torque settings when clamping the barrel to prevent damage to the barrel or the vise.
- Avoid using excessive force when removing or installing barrels; if resistance is felt, reassess the situation rather than forcing the components.
- Keep hands and other body parts clear of the clamping area while the vise is in use.
- Use caution when handling sharp tools or components associated with barrel installation and removal.

Instructions for Installation and Usage

1. Installation of the Barrel Vise:

- Select a sturdy workbench or surface that can support the weight and force applied during use.
- Position the barrel vise on the work surface and align the bottom block.
- Using the provided 1/2"20 x 2" Allen head bolts, securely fasten the bottom block to the work surface.
- Ensure that the top block is aligned correctly with the bottom block for proper operation.

2. Selecting and Installing Bushings:

- Choose the appropriate bushing size for the barrel you are working on. Refer to the specifications for bushing sizes and their compatibility with various barrel types.
- Insert the selected bushing into the top block of the vise, ensuring it is seated properly.

3. Clamping the Barrel:

- Place the barrel into the bushing, ensuring it is correctly aligned and seated.
- Gradually tighten the top block using the Allen head bolts until the barrel is securely clamped.
- Check that the barrel does not move when force is applied.

4. Removing or Installing the Barrel:

- Follow the appropriate procedures for removing or installing the barrel, ensuring that you do not apply excessive force.
- If resistance is encountered, reassess the situation before proceeding.

5. PostUse Care:

- After use, remove the barrel and clean the vise and bushings to prevent rust and wear.
- Store the barrel vise and bushings in a dry place, away from moisture.

Disposal Instructions

- Do not dispose of this product in household waste.
- Follow local regulations regarding the disposal of metal components.
- If the product is no longer usable, consider recycling the materials if possible.

Contact Information for Further Support

For any inquiries regarding safety, usage, or maintenance of the VISE AND BUSHING SET STEEL BARREL VISE SET, please refer to the manufacturer's contact information provided with the product packaging or on their official website.

Thank you for your attention to these safety instructions. Your adherence to these guidelines will help ensure a safe and effective experience with your new product.
