

BARREL VISES W/ BUSHINGS - BARREL VISE WITH #5 STEEL ALUMINUM BUSHING

[Gunsmith Tools & Supplies](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Barrel Vises](#)

Extra Surface Area Gives Tremendous Power To Clamp Hold & Even The Tightest Barrel

To complement our "Ring-Of-Steel" Action Wrench System, we've developed the only professional-quality Barrel Vise that will positively clamp and keep even the tightest barrel from turning during removal. Machined from solid steel for durability to service the barrel installation and removal needs of any gunsmith for years and years. Our exclusive four bolt system and extra-wide design generates so much holding force, the Brownells Barrel Vise must be firmly bolted to the stoutest bench or an immovable base to realize its full - potential. Split barrel bushings come in a variety of sizes to fit many popular barrels (and some not-so-common ones) to make this universal Barrel Vise system the very first choice of professional gunsmiths. Steel Bushings provide years of service and have the necessary clamping power to break loose the tightest barrels. Aluminum Bushings also give a strong hold without risk of marring your barrel.

Safety Instruction Guide for Barrel Vises with Bushings

Introduction

Thank you for choosing the Barrel Vises with Bushings. This product is designed to provide professional quality support for barrel installation and removal. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always use the Barrel Vise in accordance with the manufacturer's instructions.
- Ensure that the work area is clean, dry, and well lit.
- Keep the work area free of distractions and hazards.
- Use personal protective equipment (PPE) such as safety glasses and gloves.
- Ensure that the product is used only by individuals who are familiar with its operation.
- Regularly inspect the Barrel Vise and its components for wear and damage.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Clamping Force:** Ensure that the Barrel Vise is securely bolted to a stable workbench or immovable base to prevent movement during use.
- **Bushings:** Use the appropriate bushing size for the barrel you are working on. Refer to the product specifications for guidance.
- **Material Handling:** Handle the steel and aluminum components with care to avoid injury from sharp edges or heavy parts.
- **Tightening Bolts:** Use the provided Allen head bolts to secure the vise. Do not overtighten, as this may damage the vise or the barrel.
- **Avoiding Marring:** When using aluminum bushings, ensure they are properly seated to prevent marring or scratching of the barrel.
- **Heat:** Be cautious of heat buildup during the clamping process, which may affect both the vise and the barrel.

Instructions for Installation and Usage

1. Installation of Barrel Vise:

- Select a sturdy, immovable workbench or base.
- Position the Barrel Vise on the workbench.
- Align the bottom block with the mounting holes and secure it using the provided ½"20 x 2" Allen head bolts.
- Ensure that the bottom block is drilled and countersunk for ½" diameter mounting bolts.

2. Using the Barrel Vise:

- Select the appropriate bushing for the barrel you are working with.
- Insert the bushing into the top block of the Barrel Vise.
- Place the barrel into the bushing, ensuring a snug fit.
- Tighten the top block using the Allen head bolts to secure the barrel in place.
- Perform the installation or removal procedure as needed, ensuring the barrel remains securely clamped.

3. **PostUse:**

- Carefully remove the barrel from the vise after use.
- Clean the Barrel Vise and bushings to remove any debris or residue.
- Store the Barrel Vise in a dry and safe location.

Disposal Instructions

- Dispose of the Barrel Vise and its components in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Check with local waste management authorities for proper disposal methods of metal and aluminum products.

Contact Information for Further Support

For any inquiries regarding the safety or use of the Barrel Vises with Bushings, please refer to the manufacturer's contact information provided with your product.

By following these safety instructions, you can ensure a safe and effective experience with your Barrel Vises. Thank you for your attention to these guidelines.
