

BARREL VISSES W/ BUSHINGS - BROWNELLS BARREL VISE WITH #14 ALUMINUM BUSHING I.D. M1 CARBINE

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Barrel Vises](#)

Extra Surface Area Gives Tremendous Power To Clamp Hold & Even The Tightest Barrel

To complement our “Ring-Of-Steel” Action Wrench System, we’ve developed the only professional-quality Barrel Vise that will positively clamp and keep even the tightest barrel from turning during removal. Machined from solid steel for durability to service the barrel installation and removal needs of any gunsmith for years and years. Our exclusive four bolt system and extra-wide design generates so much holding force, the Brownells Barrel Vise must be firmly bolted to the stoutest bench or an immovable base to realize its full potential. Split barrel bushings come in a variety of sizes to fit many popular barrels (and some not-so-common ones) to make this universal Barrel Vise system the very first choice of professional gunsmiths. Steel Bushings provide years of service and have the necessary clamping power to break loose the tightest barrels. Aluminum Bushings also give a strong hold without risk of marring your barrel.

Barrel Vise with #14 Alum. Bushing I.D. M1 Carbine

Safety Instruction Guide for BARREL VISES with BUSHINGS

Introduction

Thank you for choosing the BARREL VISES with BUSHINGS by BROWNELLS. This product is designed to assist in the secure handling of barrels during maintenance and modification. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Always inspect the product for any visible damage before use.
- Keep the product out of reach of children and vulnerable individuals.
- Use personal protective equipment (PPE) such as gloves and safety glasses when handling the product.
- Be aware of your surroundings and ensure the work area is clean and free from hazards.
- Follow all local regulations and guidelines regarding the use of tools and equipment.

Specific Safety Precautions for Use

- Do not exceed the recommended torque specifications when using bolts and bushings.
- Ensure that the barrel is properly secured in the vise before performing any work.
- Avoid placing your hands near the moving parts of the vise during operation.
- If using power tools in conjunction with the vise, follow the manufacturer's safety instructions for those tools.
- Do not modify the vise or its components in any way.
- If you experience any difficulties or concerns during use, stop immediately and seek assistance.

Instructions for Installation and Usage

1. Installation of the Barrel Vise:

- Place the bottom block of the vise on a stable work surface.
- Align the top block with the bottom block, ensuring the mounting holes are aligned.
- Insert the provided $\frac{1}{2}$ "20 x 2" Allen head bolts through the top block into the bottom block.
- Tighten the bolts securely using the hex wrench provided.

2. Using the Barrel Vise:

- Select the appropriate bushing for the barrel you are working on.
- Insert the bushing into the top block of the vise.
- Place the barrel into the bushing, ensuring a snug fit.
- Tighten the top block to secure the barrel in place, ensuring it is firmly held without excessive force.

3. PostUsage:

- After completing your work, carefully release the tension on the vise.
- Remove the barrel and bushing from the vise.
- Clean the vise and store it in a dry place to prevent corrosion.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- If the product is no longer usable, consider recycling materials where possible.
- Do not dispose of the product in household waste. Check for local electronic waste disposal options.

Contact Information for Further Support

For any safety inquiries or concerns regarding the BARREL VISES with BUSHINGS, please contact the retailer or manufacturer directly. Ensure to have your product details available for reference.

By following these guidelines and instructions, you can ensure a safe and effective experience with your BARREL VISES with BUSHINGS. Always prioritize safety and do not hesitate to seek help if needed.
