

# BARREL VISE ONLY NO BUSHING

[Gunsmith Tools & Supplies](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Barrel Vises](#)

To complement our “Ring-Of-Steel” Action Wrench System, we’ve developed the only professional-quality Barrel Vise that will positively clamp and keep even the tightest barrel from turning during removal. Machined from solid steel for durability to service the barrel installation and removal needs of any gunsmith for years and years. Our exclusive four bolt system and extra-wide design generates so much holding force, the Brownells Barrel Vise must be firmly bolted to the stoutest bench or an immovable base to realize its full - potential. This item is the Barrel Vise only, steel and aluminum bushing are sold separately.

# Barrel Vise Safety Instructions

## Introduction

Thank you for choosing the Barrel Vise. This professional quality tool is designed to securely hold barrels during installation and removal. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Ensure the Barrel Vise is used only for its intended purpose, which is to hold barrels securely during installation and removal.
- Always inspect the Barrel Vise for any signs of damage before use. Do not use if damaged.
- Keep the work area clean and well lit to prevent accidents.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the Barrel Vise.
- Ensure that all tools and equipment used in conjunction with the Barrel Vise are in good working condition.
- Store the Barrel Vise in a dry place when not in use to prevent rust and damage.
- Follow all local laws and regulations regarding the handling and use of firearms and related tools.

## Specific Safety Precautions for Use

- Always bolt the Barrel Vise securely to a stable, immovable surface to prevent movement during use.
- When clamping a barrel, ensure it is properly aligned to avoid unnecessary strain on the tool or the barrel itself.
- Do not exceed the recommended clamping force; excessive force can damage the barrel or the vise.
- Avoid placing fingers or hands near the clamping area when tightening the vise.
- Do not attempt to modify the Barrel Vise in any way; modifications can compromise safety and effectiveness.
- If you are inexperienced with firearms or gunsmithing tools, seek guidance from a qualified professional before use.

## Instructions for Installation and Usage

### 1. Installation:

- Select a sturdy workbench or surface that can support the weight and force applied during use.
- Use appropriate hardware (not included) to securely bolt the Barrel Vise to the workbench.
- Ensure that the Barrel Vise is level and stable before proceeding.

### 2. Usage:

- Place the barrel in the Barrel Vise, ensuring it is properly seated.
- Use the four bolt system to clamp the barrel securely. Tighten the bolts evenly to distribute pressure.
- Always check the alignment of the barrel before proceeding with any work.
- When removing the barrel, loosen the bolts gradually and carefully to avoid sudden movements.

## Disposal Instructions

- Dispose of the Barrel Vise according to local regulations for metal and industrial waste.
- If the Barrel Vise is no longer usable, consider recycling the metal components where possible.

## **Contact Information for Further Support**

For any questions or concerns regarding the Barrel Vise, please refer to the manufacturer's contact information provided in your product packaging or visit the official website.

By following these safety instructions, you can ensure a safe and effective experience with your Barrel Vise. Thank you for your attention to these important guidelines.
