

BARREL VISE BUSHINGS - #5 (0.984") STEEL BARREL VISE BUSHING

[Gunsmith Tools & Supplies](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Vise Accessories](#)

Extra Surface Area Gives Tremendous Power To Clamp Hold & Even The Tightest Barrel

Aluminum, split barrel bushings come in eight different hole sizes and one, special, pre-machined bushing to make this universal Barrel Vise system the very first choice of professional gunsmiths. Steel Bushings provide years of service, plus have the necessary clamping power to break loose the tightest barrels. Aluminium Bushings give exceptional holding ability without marking your barrel. Solid Bushings - Solid bushings that have NOT been split so you can alter them as you want.

Safety Instruction Guide for BARREL VISE BUSHINGS #5 (0.984") STEEL BARREL VISE BUSHING

Introduction

Thank you for choosing the BARREL VISE BUSHINGS #5 (0.984") STEEL BARREL VISE BUSHING. This product is designed for professional gunsmiths and enthusiasts to provide a secure and safe method for working with rifle barrels. Please read this safety instruction guide carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always use the product as intended and follow all instructions.
- Inspect the product before each use for any signs of damage or wear.
- Ensure that the product is used in a welllit and organized workspace.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the bushing size matches the barrel diameter to prevent slippage or damage.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the product.
- Avoid using excessive force when clamping the barrel to prevent damage to both the bushing and the barrel.
- Do not modify the bushings without proper knowledge and understanding of the implications.
- Ensure that the work area is free from distractions and hazards.

Instructions for Installation and Usage

1. Selecting the Correct Bushing:

- Choose the appropriate bushing size for the barrel you are working with. Refer to the specifications provided:
 - #5 Bushing fits military Mauser 98 barrels.
 - #6 Bushing is tapered to fit Remington Factory .3006 Sporter and similar profile barrels.
 - #12 & 13 are designed for standard and heavy barrels on M1A/M14's and M1 Garand's.

2. Setting Up the Barrel Vise:

- Place the barrel vise on a stable surface to ensure it does not move during use.
- Insert the selected bushing into the vise.
- Align the barrel with the bushing, ensuring it fits snugly.

3. Clamping the Barrel:

- Gently close the vise until the barrel is securely held in place.
- Check for any movement before proceeding with work.
- If the barrel shifts, readjust the bushing size or position.

4. Performing Work on the Barrel:

- Proceed with your gunsmithing tasks, ensuring to regularly check the stability of the barrel.
- Avoid using excessive force on the barrel.

5. Removing the Barrel:

- Once work is complete, carefully open the vise to release the barrel.
- Inspect the barrel and bushing for any signs of wear or damage.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- If the product is damaged, ensure it is disposed of safely to prevent injury.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product concerns, please refer to the manufacturer's contact details provided on the packaging or product documentation.

By following these safety instructions, you can ensure a safer working environment while using the BARREL VISE BUSHINGS #5 (0.984") STEEL BARREL VISE BUSHING. Thank you for prioritizing safety in your gunsmithing activities.
