

BARREL VISE BUSHINGS - #6 (0.900"-0.748") TAPERED STEEL BARREL VISE BUSHING

[Gunsmith Tools & Supplies](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Vise Accessories](#)

Extra Surface Area Gives Tremendous Power To Clamp Hold & Even The Tightest Barrel

Aluminum, split barrel bushings come in eight different hole sizes and one, special, pre-machined bushing to make this universal Barrel Vise system the very first choice of professional gunsmiths. Steel Bushings provide years of service, plus have the necessary clamping power to break loose the tightest barrels. Aluminium Bushings give exceptional holding ability without marking your barrel. Solid Bushings - Solid bushings that have NOT been split so you can alter them as you want.

Safety Instruction Guide for BARREL VISE BUSHINGS #6

Introduction

Thank you for choosing the BARREL VISE BUSHINGS #6 (0.900"0.748") Tapered Steel Barrel Vise Bushing. This product is designed to provide a secure and reliable solution for holding barrels during gunsmithing tasks. To ensure safe use and compliance with the EU General Product Safety Regulation (GPSR), please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the bushings for signs of wear or damage before each use.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves while handling the product.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Do not exceed the recommended clamping pressure when using the bushings, as this may cause damage to the product or injury.
- Avoid using the bushings with incompatible barrel types or sizes.
- Ensure that the work area is clean and free from clutter to prevent accidents.
- Do not modify or alter the bushings in any way that could compromise their safety or effectiveness.
- Always follow the manufacturer's instructions for use and maintenance.

Instructions for Installation and Usage

1. Selecting the Right Bushing:

- Choose the appropriate bushing size for your barrel. Refer to the product specifications for the correct fit.
- For military Mauser 98 barrels, use the #5 bushing.
- For Remington Factory .3006 Sporter and similar profile barrels, use the #6 tapered bushing.

2. Installation:

- Ensure that the barrel is clean and free of any debris.
- Insert the selected bushing into the barrel vise.
- Align the barrel with the bushing, ensuring a snug fit.

3. Clamping:

- Gradually tighten the vise to secure the barrel in place.
- Monitor the pressure to avoid excessive force that could damage the barrel or bushing.

4. Usage:

- Perform your gunsmithing tasks while ensuring that the barrel remains securely clamped.
- Periodically check the fit and security of the bushing during use.

5. After Use:

- Carefully release the clamping pressure before removing the barrel and bushing.
- Clean the bushings and store them in a dry place to prevent corrosion.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- If the product is damaged beyond repair, ensure that it is disposed of safely to prevent injury or environmental harm.
- Recycle materials where possible, following your local recycling guidelines.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product support, please refer to the EUbased contact point associated with this product. Ensure to have your product details ready for assistance.

Thank you for your attention to these safety instructions. Your compliance will help ensure a safe and effective experience with the BARREL VISE BUSHINGS #6.
