

# BARREL VISE BUSHINGS - #11 (1.250") STEEL BARREL VISE BUSHING

[Gunsmith Tools & Supplies](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Vise Accessories](#)

## Extra Surface Area Gives Tremendous Power To Clamp Hold & Even The Tightest Barrel

Aluminum, split barrel bushings come in eight different hole sizes and one, special, pre-machined bushing to make this universal Barrel Vise system the very first choice of professional gunsmiths. Steel Bushings provide years of service, plus have the necessary clamping power to break loose the tightest barrels. Aluminium Bushings give exceptional holding ability without marking your barrel. Solid Bushings - Solid bushings that have NOT been split so you can alter them as you want.

# Safety Instruction Guide for BARREL VISE BUSHINGS #11 (1.250") STEEL BARREL VISE BUSHING

## Introduction

Thank you for choosing the BARREL VISE BUSHINGS #11. This product is designed for professional gunsmiths and enthusiasts who require a reliable and effective solution for working with rifle barrels. To ensure your safety and the longevity of the product, please read this safety instruction guide carefully before use.

## General Safety Guidelines

- Always read and understand the instructions before using the product.
- Ensure that the product is used in accordance with the intended purpose.
- Regularly inspect the bushings for any signs of wear or damage before each use.
- Store the bushings in a cool, dry place away from direct sunlight and moisture.
- Keep the bushings out of reach of children and vulnerable individuals.

## Specific Safety Precautions for Use

- Use protective eyewear to shield your eyes from debris when working with barrels.
- Ensure the barrel is securely held in place before applying any force.
- Avoid excessive force that may damage the barrel or the bushing.
- Do not modify the bushings unless specifically designed for alteration.
- Be cautious of sharp edges when handling the bushings.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and ensure your work area is clean and organized.
- Select the appropriate bushing size for your barrel. Refer to the product specifications to choose the correct I.D. size.

### 2. Installation:

- Place the selected bushing into the barrel vise.
- Ensure that the bushing is properly aligned with the barrel shank.
- Tighten the vise slowly to secure the bushing without damaging the barrel.

### 3. Usage:

- Once the bushing is securely in place, proceed with your work on the barrel.
- Monitor the bushing and barrel for any signs of movement or damage during use.
- After completing your work, carefully release the vise to remove the bushing.

### 4. PostUsage Care:

- Clean the bushings after each use to remove any debris or residue.
- Inspect the bushings for any wear or damage and replace if necessary.

## **Disposal Instructions**

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of the bushings in regular household waste.
- Consider recycling options for aluminum and steel components.

## **Contact Information for Further Support**

For any safety inquiries or additional support regarding the BARREL VISE BUSHINGS #11, please refer to the contact information provided on the packaging or user manual.

This safety instruction guide is intended to provide essential information for the safe use of the BARREL VISE BUSHINGS #11. By following these guidelines, you can ensure a safe and effective experience while using this product. Always prioritize safety and report any concerns related to product safety to the appropriate authorities.
