

BARREL VISE BUSHINGS - BROWNELLS #12 & #13 M14/GARAND STEEL BARREL VISE BUSHING

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Vise Accessories](#)

Extra Surface Area Gives Tremendous Power To Clamp Hold & Even The Tightest Barrel

Aluminum, split barrel bushings come in eight different hole sizes and one, special, pre-machined bushing to make this universal Barrel Vise system the very first choice of professional gunsmiths. Steel Bushings provide years of service, plus have the necessary clamping power to break loose the tightest barrels. Aluminium Bushings give exceptional holding ability without marking your barrel. Solid Bushings - Solid bushings that have NOT been split so you can alter them as you want.

Safety Instruction Guide for BARREL VISE BUSHINGS BROWNELLS #12 & #13 M14/GARAND STEEL BARREL VISE BUSHING

Introduction

Thank you for choosing the Barrel Vise Bushings Brownells #12 & #13. These bushings are designed for professional gunsmiths and hobbyists alike, providing a reliable solution for holding barrels securely during work. This guide contains essential safety instructions to ensure the safe use of this product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always inspect the bushings for any signs of damage before use. Do not use damaged bushings.
- Keep the bushings out of reach of children and vulnerable individuals.
- Use the bushings only for their intended purpose; do not modify or alter them without proper guidance.
- Be aware of your surroundings and ensure that the workspace is clear of hazards before beginning any work.
- Wear appropriate personal protective equipment (PPE), such as safety goggles and gloves, when using the bushings.

Specific Safety Precautions for Use

- Use appropriate clamping techniques to avoid slipping or movement of the barrel during work.
- Do not exceed the recommended torque specifications when clamping.
- Ensure that the bushings are properly seated on the barrel before applying any force.
- Avoid using the bushings with barrels that are excessively rusted or damaged.
- If you experience any difficulty during use, stop immediately and reassess the situation.
- Keep hands and other body parts clear of the clamping area when applying force.

Instructions for Installation and Usage

1. Preparation:

- Clean the barrel and ensure it is free of debris and oil.
- Select the appropriate bushing size for your barrel.

2. Installation:

- Place the selected bushing onto the barrel, ensuring a snug fit.
- Align the bushing with the vise jaws to ensure even pressure during clamping.

3. Clamping:

- Slowly tighten the vise to secure the barrel in place.
- Monitor the pressure applied to avoid overtightening. The barrel should be held firmly but not crushed.

4. Working with the Barrel:

- Proceed with your gunsmithing tasks, ensuring that the barrel remains secure.

- Regularly check the fit of the bushing during extended use.

5. Removal:

- Carefully loosen the vise to release the pressure on the barrel.
- Remove the bushing from the barrel and inspect for any signs of wear or damage.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- If the product is no longer usable, consider recycling materials where possible.
- Do not dispose of bushings in regular household waste if they contain hazardous materials.

Contact Information for Further Support

For any questions or concerns regarding the use of the Barrel Vise Bushings, please refer to the manufacturer's contact information provided with the product packaging.

By following these safety guidelines and instructions, you can ensure a safe and effective experience while using the Barrel Vise Bushings Brownells #12 & #13. Always prioritize safety and do not hesitate to seek assistance if needed. Thank you for your commitment to safe practices in gunsmithing.
