

BARREL VISE BUSHINGS - #14 M1 CARBINE STEEL BARREL VISE BUSHING

[Gunsmith Tools & Supplies](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Vise Accessories](#)

Extra Surface Area Gives Tremendous Power To Clamp Hold & Even The Tightest Barrel

Aluminum, split barrel bushings come in eight different hole sizes and one, special, pre-machined bushing to make this universal Barrel Vise system the very first choice of professional gunsmiths. Steel Bushings provide years of service, plus have the necessary clamping power to break loose the tightest barrels. Aluminium Bushings give exceptional holding ability without marking your barrel. Solid Bushings - Solid bushings that have NOT been split so you can alter them as you want.

Safety Instruction Guide for BARREL VISE BUSHINGS #14 M1 CARBINE STEEL BARREL VISE BUSHING

Introduction

Thank you for choosing the BARREL VISE BUSHINGS #14 M1 CARBINE STEEL BARREL VISE BUSHING. This guide provides important safety information, usage instructions, and disposal guidelines to ensure that you use this product safely and effectively. Please read this guide carefully before use.

General Safety Guidelines

- Always inspect the barrel bushings for any signs of damage or wear before use. Do not use damaged bushings.
- Ensure that the bushings are compatible with your specific barrel type and size.
- Keep the bushings out of reach of children and vulnerable individuals.
- Use the bushings only for their intended purpose as described in this guide.
- If you experience any issues during use, stop immediately and seek assistance.

Specific Safety Precautions for Use

- When using the bushings, wear appropriate personal protective equipment (PPE), such as safety glasses and gloves.
- Ensure that the work area is clean, dry, and welllit.
- Avoid placing your hands near the clamping area while the bushing is in use.
- Do not exceed the recommended clamping force to avoid damaging the barrel or the bushing.
- Always follow the manufacturer's guidelines for the specific bushings you are using.

Instructions for Installation and Usage

1. Selecting the Right Bushing:

- Choose the appropriate bushing size that fits your barrel. Refer to the specifications provided in the product description.
- For military Mauser 98 barrels, use the #5 bushing.
- For Remington Factory .3006 Sporter barrels, use the #6 tapered bushing.

2. Installation:

- Ensure that the barrel is clean and free of debris.
- Insert the selected bushing into the barrel vise.
- Adjust the vise to hold the bushing securely but do not overtighten.

3. Usage:

- Once the bushing is securely in place, you can proceed with the necessary work on the barrel.
- Monitor the clamping pressure throughout the process to ensure that it remains within safe limits.

4. PostUsage:

- After completing your work, carefully remove the bushing from the barrel.
- Inspect the bushing for any signs of wear or damage before storing it.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local waste disposal regulations.
- Do not throw bushings into regular household waste if they are made of metal or aluminum. Instead, recycle where possible.

Contact Information for Further Support

For any safety inquiries or additional support, please refer to the manufacturer's contact details provided with the product packaging or on the official website.

Conclusion

By following these safety instructions, you can ensure safe and effective use of the BARREL VISE BUSHINGS #14 M1 CARBINE STEEL BARREL VISE BUSHING. Always prioritize safety and refer to this guide whenever you use the product. Thank you for your attention to these important safety measures.
