

BARREL VISE BUSHINGS - BROWNELL'S #1 (1/2") SOLID ALUMINUM BARREL VISE BUSHING

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Vise Accessories](#)

Extra Surface Area Gives Tremendous Power To Clamp Hold & Even The Tightest Barrel

Aluminum, split barrel bushings come in eight different hole sizes and one, special, pre-machined bushing to make this universal Barrel Vise system the very first choice of professional gunsmiths. Steel Bushings provide years of service, plus have the necessary clamping power to break loose the tightest barrels. Aluminium Bushings give exceptional holding ability without marking your barrel. Solid Bushings - Solid bushings that have NOT been split so you can alter them as you want.

Safety Instruction Guide for BARREL VISE BUSHINGS BROWNELLS #1 (1/2") SOLID ALUMINUM BARREL VISE BUSHING

Introduction

Thank you for choosing the BARREL VISE BUSHINGS BROWNELLS #1 (1/2") SOLID ALUMINUM BARREL VISE BUSHING. This product is designed to provide exceptional holding ability for barrel work while ensuring safety during use. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Ensure that the work area is clean, organized, and free from any hazards that could cause accidents.
- Always wear appropriate personal protective equipment (PPE), such as safety goggles and gloves, when using this product.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the bushings for wear and damage before each use. Do not use damaged bushings.
- If you experience any issues or concerns while using the bushings, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- Use the bushings only for their intended purpose as specified in the product description.
- Avoid using excessive force when clamping barrels. Overtightening may lead to damage to the bushing or barrel.
- Ensure that the bushing is properly aligned with the barrel to prevent slippage or accidents.
- Do not modify or alter the bushings in any way that may compromise their integrity or safety.
- If using the bushings with power tools, follow the manufacturer's guidelines for safe operation.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and materials before starting.
- Ensure that the work area is welllit and free from distractions.

2. Selecting the Right Bushing

- Choose a bushing size that closely matches the shank diameter of the barrel you are working on.
- Refer to the product specifications for the correct bushing sizes:
 - #4, 7, 8, 9, 10, and 11 for most rifle barrels.
 - #5 for military Mauser 98 barrels.
 - #6 for Remington Factory .3006 Sporter and similar profile barrels.
 - #12 & 13 for standard and heavy barrels on M1A/M14's and M1 Garand's.

3. Installation

- Insert the chosen bushing into the barrel vise.
- Ensure that the bushing is seated firmly and securely.
- Align the barrel with the bushing, ensuring a snug fit.

4. Clamping

- Gently tighten the vise to hold the barrel in place.
- Avoid overtightening; the bushing should hold the barrel securely without deformation.

5. Working on the Barrel

- Proceed with your work, ensuring that the barrel remains stable and secure.
- Regularly check the alignment and tightness of the bushing during use.

6. After Use

- Carefully release the vise and remove the bushing from the barrel.
- Clean the bushings and store them in a safe, dry place.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- If the product is no longer usable, consider recycling materials where possible.

Contact Information for Further Support

For any safety inquiries or concerns regarding this product, please reach out to the appropriate EUbased contact point. Ensure that all safety queries are directed to the relevant authorities or customer service channels.

Conclusion

By following the safety instructions outlined in this guide, you can ensure safe and effective use of the BARREL VISE BUSHINGS BROWNELLS #1 (1/2") SOLID ALUMINUM BARREL VISE BUSHING. Always prioritize safety and adhere to the guidelines to protect yourself and others during use. Thank you for your attention to these important safety measures.
