

BARREL VISE BUSHINGS - #2 (3/4") SOLID ALUMINUM BARREL VISE BUSHING

[Gunsmith Tools & Supplies](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Vise Accessories](#)

Extra Surface Area Gives Tremendous Power To Clamp Hold & Even The Tightest Barrel

Aluminum, split barrel bushings come in eight different hole sizes and one, special, pre-machined bushing to make this universal Barrel Vise system the very first choice of professional gunsmiths. Steel Bushings provide years of service, plus have the necessary clamping power to break loose the tightest barrels. Aluminium Bushings give exceptional holding ability without marking your barrel. Solid Bushings - Solid bushings that have NOT been split so you can alter them as you want.

Safety Instruction Guide for BARREL VISE BUSHINGS #2 (3/4") SOLID ALUMINUM BARREL VISE BUSHING

Introduction

Thank you for choosing the BARREL VISE BUSHINGS #2 (3/4") SOLID ALUMINUM BARREL VISE BUSHING. This product is designed for professional gunsmithing applications, providing secure and reliable support for various barrel sizes. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always inspect the bushings for any signs of damage or wear before use.
- Keep the bushings out of reach of children and vulnerable individuals.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling the bushings.
- Follow all local regulations and guidelines related to firearm maintenance and safety.

Specific Safety Precautions for Use

- Do not exceed the recommended clamping force to avoid damaging the barrel or the bushing.
- Ensure that the bushing is properly aligned with the barrel before applying pressure.
- Avoid using the bushings on barrels that are excessively rusted or damaged.
- When working with firearms, always follow standard firearm safety practices.
- If you experience any difficulty or resistance while using the bushings, stop immediately and reassess the situation.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and materials before starting.
- Ensure that your work area is clean and welllit.

2. Selecting the Correct Bushing

- Choose the appropriate bushing size based on the barrel diameter. Refer to the product specifications for available sizes.
- For military Mauser 98 barrels, use the #5 bushing.
- For Remington Factory .3006 Sporter and similar profile barrels, use the #6 bushing.

3. Installation

- Place the bushing over the barrel, ensuring it fits snugly.
- If using solid bushings, ensure they are not split and are positioned correctly.
- Align the bushing with the barrel shank for optimal support.

4. Clamping

- Secure the bushing in place using the barrel vise.
- Apply even pressure to avoid damaging the barrel or bushing.

- Monitor for any signs of slippage or misalignment during clamping.

5. Maintenance

- After use, clean the bushings with a dry cloth to remove any debris or residue.
- Store the bushings in a dry location to prevent corrosion.

Disposal Instructions

- Dispose of the product in accordance with local regulations regarding metal and aluminum disposal.
- Do not dispose of the product in general waste. Check for recycling options in your area.

Contact Information for Further Support

For any safety inquiries or concerns regarding the BARREL VISE BUSHINGS #2, please refer to your local distributor or retailer for assistance.

Conclusion

By following the guidelines and instructions outlined in this safety instruction guide, you can ensure the safe and effective use of the BARREL VISE BUSHINGS #2 (3/4") SOLID ALUMINUM BARREL VISE BUSHING. Always prioritize safety and adhere to best practices when working with firearms and related tools. Thank you for your attention to these important safety measures.
