

BARREL VISE BUSHINGS - BROWNELLS #4 (1.170") ALUMINUM BARREL VISE BUSHING

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Vise Accessories](#)

Extra Surface Area Gives Tremendous Power To Clamp Hold & Even The Tightest Barrel

Aluminum, split barrel bushings come in eight different hole sizes and one, special, pre-machined bushing to make this universal Barrel Vise system the very first choice of professional gunsmiths. Steel Bushings provide years of service, plus have the necessary clamping power to break loose the tightest barrels. Aluminium Bushings give exceptional holding ability without marking your barrel. Solid Bushings - Solid bushings that have NOT been split so you can alter them as you want.

Safety Instruction Guide for BARREL VISE BUSHINGS BROWNELLS #4 (1.170") ALUMINUM BARREL VISE BUSHING

Introduction

Thank you for choosing the BARREL VISE BUSHINGS BROWNELLS #4. This product is designed to provide exceptional holding ability for various barrel sizes while ensuring safety during use. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Ensure safe use of the product by following all instructions and safety precautions.
- Be aware of potential hazards associated with improper use of the barrel vise bushings.
- Always inspect the bushings for damage before use. Do not use damaged bushings.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or accidents to the relevant authorities.
- Stay informed about product recalls and safety updates through the EU Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the barrel vise bushings.
- Ensure that the work area is clean, organized, and free of obstacles.
- Do not exceed the recommended torque settings when using the bushings to avoid damage or injury.
- Use the bushings only for their intended purpose as specified in the product specifications.
- Avoid using the bushings with incompatible barrel sizes or types.
- Be cautious of sharp edges and components when handling the bushings.
- Ensure that the barrel is securely clamped before applying any force to avoid accidents.

Instructions for Installation and Usage

1. Selecting the Right Bushing:

- Choose the appropriate bushing size based on the shank diameter of the barrel you are working with.
- Refer to the product specifications for the compatible sizes.

2. Installation:

- Place the selected bushing into the barrel vise.
- Ensure that the bushing is seated properly and securely in the vise.

3. Clamping the Barrel:

- Insert the barrel into the bushing.
- Gradually tighten the vise until the barrel is securely clamped.
- Do not overtighten, as this may damage the barrel or bushing.

4. Using the Barrel Vise:

- Once the barrel is securely clamped, you can proceed with your gunsmithing tasks.

- Maintain a steady hand and apply force gradually to avoid slipping.

5. Removing the Barrel:

- Once your work is complete, carefully loosen the vise to release the barrel.
- Remove the barrel and bushing from the vise.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for recycling options or hazardous waste disposal guidelines in your area.

Contact Information for Further Support
