

# BARREL VISE BUSHINGS - #5 (0.87"-1.00") ALUMINUM BARREL VISE BUSHING

[Gunsmith Tools & Supplies](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Vise Accessories](#)

## Extra Surface Area Gives Tremendous Power To Clamp Hold & Even The Tightest Barrel

Aluminum, split barrel bushings come in eight different hole sizes and one, special, pre-machined bushing to make this universal Barrel Vise system the very first choice of professional gunsmiths. Steel Bushings provide years of service, plus have the necessary clamping power to break loose the tightest barrels. Aluminium Bushings give exceptional holding ability without marking your barrel. Solid Bushings - Solid bushings that have NOT been split so you can alter them as you want.

# Safety Instruction Guide for BARREL VISE BUSHINGS #5 (0.87"1.00") ALUMINUM BARREL VISE BUSHING

## Introduction

Thank you for choosing the BARREL VISE BUSHINGS #5. This product is designed to provide a secure and reliable solution for holding barrels during maintenance and gunsmithing tasks. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Always ensure that the work area is clean and free from clutter.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, while handling the bushings.
- Keep the bushings out of reach of children and pets.
- Do not use the bushings for any purpose other than intended.
- Regularly inspect the bushings for any signs of wear or damage before use.
- Always follow local regulations and guidelines regarding the use of tools and equipment.

## Specific Safety Precautions for Use

- Ensure that the barrel is securely clamped within the bushing before starting any work.
- Do not exceed the recommended torque specifications when tightening the bushing.
- Avoid using the bushings with barrels that are excessively rusted or damaged.
- If using the aluminum bushings, be cautious not to overtighten, as this may cause deformation.
- Always work in a wellventilated area to avoid inhaling any dust or fumes generated during work.
- If you experience any difficulty while using the bushings, stop and seek assistance.

## Instructions for Installation and Usage

### 1. Selecting the Right Bushing:

- Choose the appropriate bushing size that fits your barrel's diameter. The #5 bushing is specifically designed for military Mauser 98 barrels.

### 2. Installation:

- Place the bushing over the barrel, ensuring it fits snugly.
- If using a solid bushing, ensure it is not split and can be adjusted as needed.
- Align the bushing with the vise to ensure proper clamping.

### 3. Clamping the Barrel:

- Secure the barrel in the vise, ensuring that the bushing holds the barrel firmly in place.
- Tighten the vise gradually to avoid damaging the barrel or the bushing.

### 4. Performing Work:

- Once the barrel is secured, proceed with your gunsmithing tasks.
- Regularly check the security of the bushing during work to ensure it remains tight.

### 5. Removing the Barrel:

- After completing your work, carefully loosen the vise to release the barrel.
- Remove the bushing from the barrel gently to avoid any damage.

## **Disposal Instructions**

- Dispose of any damaged or worn bushings in accordance with local waste disposal regulations.
- Do not dispose of the bushings in regular household waste if they are made from aluminum or steel; check for recycling options in your area.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the BARREL VISE BUSHINGS #5, please refer to the manufacturer's contact information provided on the product packaging or visit the manufacturer's website.

By following these safety guidelines and instructions, you can ensure a safe and effective experience while using the BARREL VISE BUSHINGS #5. Thank you for your attention to safety.
