

BARREL VISE BUSHINGS - #6 (0.900"-0.748") TAPERED ALUMINUM BARREL VISE BUSHING

[Gunsmith Tools & Supplies](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Vise Accessories](#)

Extra Surface Area Gives Tremendous Power To Clamp Hold & Even The Tightest Barrel

Aluminum, split barrel bushings come in eight different hole sizes and one, special, pre-machined bushing to make this universal Barrel Vise system the very first choice of professional gunsmiths. Steel Bushings provide years of service, plus have the necessary clamping power to break loose the tightest barrels. Aluminium Bushings give exceptional holding ability without marking your barrel. Solid Bushings - Solid bushings that have NOT been split so you can alter them as you want.

Safety Instruction Guide for BARREL VISE BUSHINGS #6

Introduction

Thank you for choosing the BARREL VISE BUSHINGS #6 (0.900"0.748") Tapered Aluminum Barrel Vise Bushing. This product is designed for professional gunsmiths and hobbyists alike, offering a reliable solution for securing barrels during maintenance and modifications. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the bushings for wear and damage before each use.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling tools and firearms.
- Follow all local laws and regulations regarding firearm maintenance and modifications.

Specific Safety Precautions for Use

- Do not exceed the recommended clamping force to avoid damaging the barrel or the bushing.
- Ensure that the bushing is properly seated in the vise before applying any force.
- Avoid using the bushings with incompatible barrel sizes or profiles.
- Do not modify the bushings beyond their intended design, as this may compromise safety.
- Be mindful of sharp edges when handling the bushings to prevent cuts or injuries.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and safety equipment.
- Ensure the workspace is clean, welllit, and free of distractions.

2. Selecting the Right Bushing:

- Choose the appropriate bushing size for your barrel. Refer to the specifications provided:
 - #4, 7, 8, 9, 10, and 11 for standard rifle barrels.
 - #5 for military Mauser 98 barrels.
 - #6 for Remington Factory .3006 Sporter and similar profiles.
 - #12 and #13 for M1A/M14 and M1 Garand standard and heavy barrels.

3. Installation:

- Insert the selected bushing into the barrel vise.
- Ensure that the bushing is aligned correctly with the barrel.
- Tighten the vise slowly and evenly until the barrel is securely held in place without excessive force.

4. Usage:

- Perform your maintenance or modification tasks as needed.
- Regularly check the bushing and barrel for any movement or slippage during use.

5. PostUse:

- Once your work is complete, carefully release the vise and remove the barrel.
- Inspect the bushing for any signs of wear or damage before storing.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of the bushings in regular household waste. Check for recycling options for aluminum and steel materials.

Contact Information for Further Support

For any safety inquiries or additional support regarding the BARREL VISE BUSHINGS #6, please refer to the EU contact point or your local distributor.

By following these guidelines, you can ensure a safe and effective experience with the BARREL VISE BUSHINGS #6. Always prioritize safety and compliance with local regulations when working with firearms. Thank you for your attention to these important safety instructions.
