

# **BARREL VISE BUSHINGS - BROWNEllS #7 (1.150") ALUMINUM BARREL VISE BUSHING**

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Vise Accessories](#)

## **Extra Surface Area Gives Tremendous Power To Clamp Hold & Even The Tightest Barrel**

Aluminum, split barrel bushings come in eight different hole sizes and one, special, pre-machined bushing to make this universal Barrel Vise system the very first choice of professional gunsmiths. Steel Bushings provide years of service, plus have the necessary clamping power to break loose the tightest barrels. Aluminium Bushings give exceptional holding ability without marking your barrel. Solid Bushings - Solid bushings that have NOT been split so you can alter them as you want.

# Safety Instruction Guide for BARREL VISE BUSHINGS BROWNELLS #7 (1.150") ALUMINUM BARREL VISE BUSHING

## Introduction

Thank you for choosing the BARREL VISE BUSHINGS BROWNELLS #7 (1.150") ALUMINUM BARREL VISE BUSHING. This guide provides essential safety instructions and guidelines to ensure the safe use of this product. Please read this guide carefully before use.

## General Safety Guidelines

- Always ensure that the product is used in accordance with the manufacturer's instructions.
- Inspect the bushings for any signs of damage or wear before each use.
- Keep the bushings out of reach of children and vulnerable individuals to prevent accidents.
- Use the bushings only for their intended purpose as specified in this guide.
- Be aware of your surroundings and ensure that you have a stable and secure work area when using the bushings.
- Report any unsafe products or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Ensure that the barrel is securely clamped before applying any force to prevent slipping or injury.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the bushings.
- Do not exceed the recommended torque specifications for clamping to avoid damaging the bushings or the barrel.
- Avoid using the bushings with barrels that are excessively rusted or damaged.
- If you are unsure about the compatibility of the bushings with a specific barrel, consult a professional gunsmith.

## Instructions for Installation and Usage

### 1. Selecting the Right Bushing:

- Choose the appropriate bushing size based on the shank diameter of the barrel you will be working with. Refer to the product specifications for sizes available.

### 2. Installation:

- Insert the selected bushing into the barrel vise.
- Ensure that the bushing is seated properly and is aligned with the barrel.

### 3. Clamping the Barrel:

- Place the barrel into the bushing, ensuring it is secure.
- Tighten the vise gently until the barrel is held firmly in place. Avoid overtightening, as this may damage the barrel or bushing.

### 4. Using the Bushing:

- Proceed with your gunsmithing tasks as needed, ensuring that the barrel remains securely

clamped throughout the process.

#### **5. Removing the Bushing:**

- Once your work is complete, carefully loosen the vise to release the barrel.
- Remove the bushing from the vise and store it in a safe place.

## **Disposal Instructions**

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of bushings in household waste. Check with local authorities for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries regarding safety or product information, please reach out to the appropriate EUbased contact point for assistance.

By following these guidelines, you can help ensure a safe and effective experience while using the BARREL VISE BUSHINGS BROWNELLS #7 (1.150") ALUMINUM BARREL VISE BUSHING. Enjoy your work and stay safe!
