

# BARREL VISE BUSHINGS - #10 (1.225") ALUMINUM BARREL VISE BUSHING

[Gunsmith Tools & Supplies](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Vise Accessories](#)

## Extra Surface Area Gives Tremendous Power To Clamp Hold & Even The Tightest Barrel

Aluminum, split barrel bushings come in eight different hole sizes and one, special, pre-machined bushing to make this universal Barrel Vise system the very first choice of professional gunsmiths. Steel Bushings provide years of service, plus have the necessary clamping power to break loose the tightest barrels. Aluminium Bushings give exceptional holding ability without marking your barrel. Solid Bushings - Solid bushings that have NOT been split so you can alter them as you want.

# Safety Instruction Guide for BARREL VISE BUSHINGS #10 (1.225") ALUMINUM BARREL VISE BUSHING

## Introduction

Thank you for choosing the BARREL VISE BUSHINGS #10 (1.225") ALUMINUM BARREL VISE BUSHING. This product is designed to provide exceptional holding ability for your firearm barrels while ensuring safety during use. Please read this safety instruction guide carefully to understand how to use this product safely and effectively.

## General Safety Guidelines

- Always inspect the bushing for any visible damage before use.
- Ensure that the barrel vise is securely mounted and stable before attempting to use the bushings.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling firearms and tools.
- Keep the bushings and all tools out of reach of children and vulnerable individuals.
- Follow all local laws and regulations regarding firearm handling and maintenance.
- In case of any accidents or unsafe conditions, report them to the relevant authorities.

## Specific Safety Precautions for Use

- **Hazard Identification:** The primary hazards associated with the use of barrel bushings include accidental injury from improper handling and potential damage to the firearm.
- **Avoiding Hazards:**
  - Do not use the bushings if they are cracked or damaged.
  - Ensure that the bushing size matches the barrel diameter to prevent slippage.
  - Always apply even pressure when tightening the vise to avoid damaging the barrel.
  - Do not exceed the recommended torque settings when using the bushings.

## Instructions for Installation and Usage

### 1. Installation:

- Select the appropriate bushing size for your barrel.
- Ensure the barrel vise is securely mounted on a stable surface.
- Insert the selected bushing into the vise.
- Adjust the vise to hold the barrel securely without excessive force.

### 2. Usage:

- Once the barrel is secured, proceed with the intended maintenance or modification.
- Periodically check the bushing and barrel for any signs of movement or damage during use.
- After completing your work, carefully release the pressure on the vise to remove the barrel.

## Disposal Instructions

- Dispose of any damaged or unusable bushings according to local regulations for metal recycling.
- Do not throw bushings in regular household waste.
- Ensure that all parts are disposed of safely to prevent environmental harm.

## **Contact Information for Further Support**

For any inquiries regarding safety or product information, please refer to the manufacturer's contact details provided with the product packaging.

Thank you for following these safety guidelines. Your safety and the safety of others is our priority. Enjoy using your BARREL VISE BUSHINGS #10 (1.225") ALUMINUM BARREL VISE BUSHING responsibly.
