

# TACTICAL SCOPE BASE CONVERSION KIT - BROWNELLS TACTICAL SCOPE BASE CONVERSION KIT TORX

[Gunsmith Tools](#) > [Sight & Scope Installation Tools](#) > [Scope Base Conversion Kits](#)

## Strong, 8-40 Screws Help Prevent Scope "Flyoff"

Keep those heavy tactical scopes, rings and bases locked solidly to the receiver by converting your rifle's 6-48 mount screws to the stronger 8-40 screw size. Kit contains everything you need: 12 each of 8-40 x 1/4" and 3/8" Socket or Torx head screws, #19S and #28S drill bit, a taper tap and a bottom tap, plus one Fillister counterbore and our Screw Gizzie.

# TACTICAL SCOPE BASE CONVERSION KIT SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the TACTICAL SCOPE BASE CONVERSION KIT by BROWNELLS. This product is designed to enhance the stability and security of your tactical scopes, rings, and bases. To ensure safe and effective use of this kit, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Always use the product according to the manufacturer's instructions.
- Keep the kit out of reach of children and vulnerable individuals.
- Ensure that all tools and components are in good condition before use.
- Regularly inspect the installed components for signs of wear or damage.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about recall updates via the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - Improper installation may lead to scope detachment, which can cause injury.
  - Sharp edges on tools and screws may cause cuts.
  - Heavy scopes can fall if not secured properly.
- **Avoiding Hazards:**
  - Always wear safety goggles when working with tools to protect your eyes.
  - Use gloves to prevent cuts from sharp edges.
  - Ensure your workspace is clean and free from hazards.
  - Do not use the kit if any components are damaged or missing.
  - Follow torque specifications when tightening screws to avoid overtightening.

## Instructions for Installation and Usage

1. **Preparation:**
  - Gather all components from the kit, including screws, drill bits, taps, and tools.
  - Ensure your rifle is unloaded and secured before beginning installation.
2. **Drilling:**
  - Use the #19S or #28S drill bit to create pilot holes for the new screws.
  - Drill carefully, ensuring the drill is perpendicular to the surface to maintain alignment.
3. **Tapping:**
  - Use the taper tap to create threads in the drilled holes.
  - Follow with the bottom tap to ensure full thread engagement.
4. **Screw Installation:**

- Select the appropriate 840 screw length (1/4" or 3/8") based on your installation needs.
- Insert the screws into the newly tapped holes and tighten securely, following recommended torque specifications.

#### **5. Final Inspection:**

- Check that all screws are tight and that the scope is securely mounted.
- Inspect your work for any signs of misalignment or damage.

## **Disposal Instructions**

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the product in household waste. Check for local recycling programs that accept metal and plastic components.

## **Contact Information for Further Support**

For any questions or concerns regarding the TACTICAL SCOPE BASE CONVERSION KIT, please consult the manufacturer's website or contact their customer support for assistance.

By following these safety instructions, you can ensure a safe and effective installation of your TACTICAL SCOPE BASE CONVERSION KIT. Thank you for your attention to these important guidelines.
