

TORX HEAD SCOPE RING & BASE SCREW KIT - TORX HEAD SCOPE RING BASE 240 PIECE SCREW KIT

[Gunsmith Tools & Supplies](#) > [Small Hardware](#) > [Metal Screws](#)

A TORX head lets you set a screw down tight without the bit slipping and damaging the screw slot. They give your work a clean, finished appearance. We've included T-10 and T-15 TORX sizes for use in different applications. T-10 gives you plenty of additional wall thickness where the head joins the shank; T-15 has a large socket that accepts the same driver supplied with many popular brands of rings and bases. You get an economically priced assortment of 240 screws, all made right here in the USA. 1 dozen each of 20 different screws; 11 Fillister Head and 9 Weaver Oval Head styles in 3 thread sizes and 4 lengths, all in a sturdy, compartmented box. For those special jobs we have included a hardened steel, Checker/Shortener Jig that makes grinding screws to just the right length, fast and easy. The Weaver Ring/Burris Ring alt hd screws must have the head diameter reduced to fit the Burris rings.

TORX Head Scope Ring & Base Screw Kit

Safety Instructions

Introduction

Thank you for choosing the TORX Head Scope Ring & Base Screw Kit. This product is designed to provide you with a reliable assortment of screws for various applications. To ensure your safety and the proper use of this product, please read the following safety instructions carefully.

General Safety Guidelines

- Always use the screws in accordance with their intended purpose.
- Keep the kit out of reach of children and vulnerable individuals.
- Regularly inspect the screws for any signs of wear or damage before use.
- If you notice any defects or issues, do not use the screws and report them to the appropriate authorities.
- Follow all local regulations regarding the disposal of screws and other metal products.

Specific Safety Precautions for Use

- Ensure you are using the correct TORX size (T10 or T15) for your application to avoid damaging the screws or the tools.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling screws.
- When grinding screws to the desired length using the Checker/Shortener Jig, ensure that the jig is securely fastened and that your hands are kept clear of the grinding area.
- Be cautious of sharp edges on cut screws to prevent injury.
- Do not overtighten screws as this may strip the screw slot or damage the materials being fastened.

Instructions for Installation and Usage

1. **Select the Appropriate Screw** Choose the correct screw type and size based on your project needs. Refer to the included assortment for options.
2. **Prepare Your Tools** Gather the necessary tools, including a TORX screwdriver compatible with T10 and T15 sizes.
3. **Insert the Screw** Align the screw with the predrilled hole in the material. Ensure that the screw is straight to avoid crossthreading.
4. **Tighten the Screw** Using the TORX screwdriver, turn the screw clockwise until it is snug. Do not overtighten.
5. **Check for Secure Fit** After installation, check to ensure that the screw is securely fastened and that there are no visible gaps.
6. **Use the Checker/Shortener Jig** If necessary, use the Checker/Shortener Jig to grind screws to the desired length. Follow the manufacturer's instructions for safe operation.

Disposal Instructions

- Dispose of any unused or damaged screws in accordance with local waste disposal regulations.
- Recycle metal components whenever possible to minimize environmental impact.

Contact Information for Further Support

For any inquiries regarding safety or product information, please refer to the appropriate authorities or your retailer. Always keep this manual for future reference.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safe and effective experience with your TORX Head Scope Ring & Base Screw Kit.
