

# TORX HEAD SCOPE RING & BASE SCREW KIT - BROWNELLS T-10 WEAVER OVAL SCREW 6-48 X 1/4 12 PACK

[Gunsmith Tools](#) > [Small Hardware](#) > [Metal Screws](#)

## 240 TORX Screws To Fit Popular Rings & Bases; Includes T-10 & T-15 Heads

A TORX head lets you set a screw down tight without the bit slipping and damaging the screw slot. They give your work a clean, finished appearance. We've included T-10 and T-15 TORX sizes for use in different applications. T-10 gives you plenty of additional wall thickness where the head joins the shank; T-15 has a large socket that accepts the same driver supplied with many popular brands of rings and bases. You get an economically priced assortment of 240 screws, all made right here in the USA. 1 dozen each of 20 different screws; 11 Fillister Head and 9 Weaver Oval Head styles in 3 thread sizes and 4 lengths, all in a sturdy, compartmented box. For those special jobs we have included a hardened steel, Checker/Shortener Jig that makes grinding screws to just the right length, fast and easy. The Weaver Ring/Burris Ring alt hd screws must have the head diameter reduced to fit the Burris rings.

# Safety Instruction Guide for TORX HEAD SCOPE RING & BASE SCREW KIT

## Introduction

Thank you for purchasing the TORX HEAD SCOPE RING & BASE SCREW KIT by BROWNELLS. This product is designed to provide a secure and reliable solution for your scope mounting needs. To ensure your safety and the safe use of this product, please read this instruction guide carefully.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always inspect the screws and tools for any damage before use.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates regularly on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use the correct TORX size (T10 or T15) to avoid damaging the screw or the tool.
- Do not overtighten screws, as this may cause damage to the scope or base.
- Wear appropriate safety gear, such as safety glasses, when using power tools.
- Ensure that the workspace is clean and free of clutter to prevent accidents.
- Follow all manufacturer instructions for the tools and equipment you are using.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools, including the T10 and T15 TORX wrenches provided in the kit.
- Ensure the workspace is clean and welllit.

### 2. Selecting Screws:

- Choose the appropriate screw size and length for your application:
  - Screw Lengths: ¼" (6.36mm), 3/8" (9.5mm), ½" (12.7mm), 9/16" (14.28mm).
  - Screw Sizes: 640, 648, 840 tpi.

### 3. Installation:

- Align the scope ring or base with the mounting surface.
- Insert the selected screw into the predrilled hole.
- Use the T10 or T15 wrench to tighten the screw securely, but do not overtighten.
- Repeat the process for all screws, ensuring even pressure across the mounting surface.

### 4. Final Inspection:

- After installation, check all screws to ensure they are securely fastened.
- Inspect the scope alignment and make any necessary adjustments.

### 5. Using the Checker/Shortener Jig:

- For special jobs requiring screw length adjustments, use the hardened steel Checker/Shortener Jig included in the kit.

- Follow the instructions provided with the jig for safe and effective use.

## **Disposal Instructions**

- Dispose of any unused screws and packaging materials in accordance with local regulations.
- Do not dispose of screws in regular household waste if they are deemed hazardous.
- Consider recycling materials where possible.

## **Contact Information for Further Support**

For any safety inquiries or further assistance regarding the TORX HEAD SCOPE RING & BASE SCREW KIT, please refer to the product packaging or visit the manufacturer's website for more information.

Thank you for your attention to these safety instructions. Your safety is our priority.
