

# **TORX HEAD SCOPE RING & BASE SCREW KIT - BROWNELLS T-10 FILLISTER HEAD SCREW 6-40 X 3/8 12 PACK**

[Gunsmith Tools](#) > [Small Hardware](#) > [Metal Screws](#)

## **240 TORX Screws To Fit Popular Rings & Bases; Includes T-10 & T-15 Heads**

A TORX head lets you set a screw down tight without the bit slipping and damaging the screw slot. They give your work a clean, finished appearance. We've included T-10 and T-15 TORX sizes for use in different applications. T-10 gives you plenty of additional wall thickness where the head joins the shank; T-15 has a large socket that accepts the same driver supplied with many popular brands of rings and bases. You get an economically priced assortment of 240 screws, all made right here in the USA. 1 dozen each of 20 different screws; 11 Fillister Head and 9 Weaver Oval Head styles in 3 thread sizes and 4 lengths, all in a sturdy, compartmented box. For those special jobs we have included a hardened steel, Checker/Shortener Jig that makes grinding screws to just the right length, fast and easy. The Weaver Ring/Burris Ring alt hd screws must have the head diameter reduced to fit the Burris rings.

## **Attributes**

- Name: [BROWNELLS T-10 FILLISTER HEAD SCREW 6-40 X 3/8 12 PACK](#)
- Manufacturer: [BROWNELLS](#)

# Safety Instruction Guide for TORX Head Scope Ring & Base Screw Kit

## Introduction

Thank you for choosing the TORX Head Scope Ring & Base Screw Kit. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this guide carefully before use.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the kit out of reach of children and vulnerable individuals.
- Inspect the screws and tools before use to ensure they are in good condition.
- Avoid using damaged screws or tools, as they may pose a risk of injury.
- Follow all instructions carefully to prevent accidents and injuries.

## Specific Safety Precautions for Use

- Always use the appropriate TORX wrench (T10 or T15) for the screws provided to avoid stripping the screw heads.
- Do not overtighten screws, as this may damage the components or lead to breakage.
- Use caution when grinding screws to the desired length with the Checker/Shortener Jig to avoid injury.
- Wear safety goggles when performing modifications to screws to protect your eyes from metal shavings.
- Ensure that your work area is clean and free of distractions to maintain focus while working.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools, including the TORX wrenches and the Checker/Shortener Jig.
- Ensure that the work area is welllit and organized.

### 2. Using the Screws:

- Select the appropriate screw size (640, 648, or 840 tpi) based on your application.
- Use the T10 or T15 TORX wrench to drive the screws into the designated holes.

### 3. Grinding Screws:

- If necessary, use the Checker/Shortener Jig to grind screws to the appropriate length.
- Adjust the jig according to the desired screw length and carefully grind the screw.
- Always wear safety goggles during this process.

### 4. Final Assembly:

- Once all screws are in place, doublecheck to ensure they are securely tightened but not overtightened.
- Inspect the assembly for any loose components before use.

## Disposal Instructions

- Dispose of any unused or damaged screws in accordance with local regulations.
- Recycle packaging materials where possible to minimize environmental impact.

- Do not dispose of screws in regular household waste if they are deemed hazardous.

## Contact Information for Further Support

For any safety inquiries or concerns regarding this product, please reach out to the designated EU contact point provided by the manufacturer.

## Conclusion

By following these safety instructions, you can ensure the safe and effective use of the TORX Head Scope Ring & Base Screw Kit. Always prioritize safety and do not hesitate to seek assistance if needed. Thank you for your attention to these important guidelines.
