

TORX HEAD SCOPE RING & BASE SCREW KIT - BROWNELLS T-10 FILLISTER HEAD SCREW 6-48 X 1/4 12 PACK

[Gunsmith Tools](#) > [Small Hardware](#) > [Metal Screws](#)

240 TORX Screws To Fit Popular Rings & Bases; Includes T-10 & T-15 Heads

A TORX head lets you set a screw down tight without the bit slipping and damaging the screw slot. They give your work a clean, finished appearance. We've included T-10 and T-15 TORX sizes for use in different applications. T-10 gives you plenty of additional wall thickness where the head joins the shank; T-15 has a large socket that accepts the same driver supplied with many popular brands of rings and bases. You get an economically priced assortment of 240 screws, all made right here in the USA. 1 dozen each of 20 different screws; 11 Fillister Head and 9 Weaver Oval Head styles in 3 thread sizes and 4 lengths, all in a sturdy, compartmented box. For those special jobs we have included a hardened steel, Checker/Shortener Jig that makes grinding screws to just the right length, fast and easy. The Weaver Ring/Burris Ring alt hd screws must have the head diameter reduced to fit the Burris rings.

Attributes

- Name: [BROWNELLS T-10 FILLISTER HEAD SCREW 6-48 X 1/4 12 PACK](#)
- Manufacturer: [BROWNELLS](#)

TORX HEAD SCOPE RING & BASE SCREW KIT

SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the TORX Head Scope Ring & Base Screw Kit by Brownells. This guide provides essential safety instructions to ensure the proper and safe use of the product. Please read this manual carefully before use.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product for any damage before use. Do not use if damaged.
- Store the product in a dry, cool place to prevent corrosion or damage.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always use the correct size TORX wrench (T10 or T15) provided in the kit to avoid stripping the screw heads.
- Ensure that screws are tightened securely but do not overtighten, as this may damage the components.
- When grinding screws to the desired length using the Checker/Shortener Jig, wear appropriate safety gear (e.g., goggles, gloves) to protect against metal shavings.
- Avoid using screws in applications for which they are not intended. Refer to the Application Chart included in the kit for proper usage.
- Be cautious when handling small parts to prevent choking hazards, especially if children are present.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools including the TORX wrench and the Checker/Shortener Jig.
- Choose the appropriate screw size and length based on your specific application.

2. Installation:

- Align the screw with the predrilled hole in the component.
- Insert the screw and use the appropriate TORX wrench to tighten it securely.
- For applications requiring specific screw lengths, use the Checker/Shortener Jig to grind screws to the desired length. Follow the manufacturer's instructions for safe operation.

3. PostInstallation:

- After installation, doublecheck that all screws are tightened and secure.
- Dispose of any excess screws or parts according to local regulations.

Disposal Instructions

- Dispose of any unused or damaged screws and components in accordance with local waste disposal regulations.
- Do not dispose of screws in regular household waste. Check for recycling options in your area.
