

TORX HEAD SCOPE RING & BASE SCREW KIT - BROWNELLS T-10 FILLISTER HEAD SCREW 6-48 X 9/16 12 PACK

[Gunsmith Tools](#) > [Small Hardware](#) > [Metal Screws](#)

240 TORX Screws To Fit Popular Rings & Bases; Includes T-10 & T-15 Heads

A TORX head lets you set a screw down tight without the bit slipping and damaging the screw slot. They give your work a clean, finished appearance. We've included T-10 and T-15 TORX sizes for use in different applications. T-10 gives you plenty of additional wall thickness where the head joins the shank; T-15 has a large socket that accepts the same driver supplied with many popular brands of rings and bases. You get an economically priced assortment of 240 screws, all made right here in the USA. 1 dozen each of 20 different screws; 11 Fillister Head and 9 Weaver Oval Head styles in 3 thread sizes and 4 lengths, all in a sturdy, compartmented box. For those special jobs we have included a hardened steel, Checker/Shortener Jig that makes grinding screws to just the right length, fast and easy. The Weaver Ring/Burris Ring alt hd screws must have the head diameter reduced to fit the Burris rings.

T-10 Refill Pak 6-48x9/16xFH,Redf Ring/Base,Leup Ring alt hd

TORX HEAD SCOPE RING & BASE SCREW KIT

SAFETY INSTRUCTIONS

Introduction

Thank you for purchasing the TORX HEAD SCOPE RING & BASE SCREW KIT by BROWNELLS. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for any signs of wear or damage to the screws and tools.
- Report any unsafe products or incidents to the relevant authorities.
- Stay informed about product recalls through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always use the correct size TORX wrench (T10 or T15) to avoid damaging the screws.
- Do not overtighten screws; follow the recommended torque specifications to prevent stripping or breaking.
- Inspect the installation area for any debris or obstructions before proceeding.
- Use appropriate safety gear, such as gloves and eye protection, when handling screws and tools.
- If you experience any difficulty during installation, stop and consult the installation instructions or seek assistance.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and components from the kit, including screws, TORX wrenches, and any additional installation tools.
- Ensure that your workspace is clean and welllit.

2. Installation Steps:

- Identify the components that require fastening with the screws.
- Select the appropriate screw length based on the application:
 - 1/4" (6.36mm)
 - 3/8" (9.5mm)
 - 1/2" (12.7mm)
 - 9/16" (14.28mm)
- Choose the correct screw size (640, 648, 840 tpi) for your application.
- Align the screw with the hole and insert it gently.
- Use the T10 or T15 TORX wrench to tighten the screw.
- Ensure the screw is snug but do not overtighten.

3. PostInstallation:

- Once all screws are installed, doublecheck each connection for security.
- Clean the workspace and store any unused screws and tools in the compartmented kit box.

Disposal Instructions

- Dispose of any unused screws and packaging materials in accordance with local waste disposal regulations.
- Do not dispose of the product in household waste. Instead, follow local guidelines for disposal of metal products.

Contact Information for Further Support

For further inquiries regarding product safety or support, please refer to the EU contact point provided by the manufacturer or distributor.

Thank you for following these safety instructions. Enjoy the reliable performance of your TORX HEAD SCOPE RING & BASE SCREW KIT.
