

TORX HEAD SCOPE RING & BASE SCREW KIT - T-10 FILLISTER HEAD SCREW 8-40 X 1/4 12 PACK

[Gunsmith Tools & Supplies](#) > [Small Hardware](#) > [Metal Screws](#)

240 TORX Screws To Fit Popular Rings & Bases; Includes T-10 & T-15 Heads

A TORX head lets you set a screw down tight without the bit slipping and damaging the screw slot. They give your work a clean, finished appearance. We've included T-10 and T-15 TORX sizes for use in different applications. T-10 gives you plenty of additional wall thickness where the head joins the shank; T-15 has a large socket that accepts the same driver supplied with many popular brands of rings and bases. You get an economically priced assortment of 240 screws, all made right here in the USA. 1 dozen each of 20 different screws; 11 Fillister Head and 9 Weaver Oval Head styles in 3 thread sizes and 4 lengths, all in a sturdy, compartmented box. For those special jobs we have included a hardened steel, Checker/Shortener Jig that makes grinding screws to just the right length, fast and easy. The Weaver Ring/Burris Ring alt hd screws must have the head diameter reduced to fit the Burris rings.

Safety Instruction Guide for TORX HEAD SCOPE RING & BASE SCREW KIT T10 FILLISTER HEAD SCREW 840 X 1/4 12 PACK

Introduction

Thank you for choosing the TORX HEAD SCOPE RING & BASE SCREW KIT. This product is designed to provide a secure and reliable fastening solution for your applications. To ensure safe and effective use, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure safe use of the product by following all instructions.
- Check for any visible damage to the screws or components before use.
- Keep the product out of reach of children and vulnerable individuals.
- Be aware of potential hazards associated with improper use, including injury from sharp edges or slipping tools.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always use the correct TORX driver (T10 or T15) provided in the kit to avoid damaging the screw head.
- Do not overtighten screws as this may strip the screw head or damage the material being fastened.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling screws and tools.
- Avoid using the screws in applications for which they are not intended.
- Ensure that the surface being fastened is clean and free from debris to maintain a secure connection.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including the TORX wrench and screws.
- Ensure that the work area is clean and welllit.

2. Installation:

- Select the appropriate screw size (640, 648, or 840 tpi) for your application.
- Insert the screw into the predrilled hole or the component you wish to fasten.
- Use the T10 or T15 TORX wrench to tighten the screw. Ensure the wrench is fully seated in the screw head.
- Tighten the screw until it is secure, but do not overtighten.

3. PostInstallation:

- Inspect the installation to ensure that all screws are tight and secure.
- Clean up any debris or leftover materials from the work area.

Disposal Instructions

- Dispose of any unused screws and packaging materials in accordance with local waste disposal regulations.
- Do not dispose of screws in a manner that could pose a risk to the environment or public safety.

Contact Information for Further Support
