

TORX HEAD SCOPE RING & BASE SCREW KIT - T-15 FILLISTER HEAD SCREW 8-40 X 1/4 12 PACK

[Gunsmith Tools & Supplies](#) > [Small Hardware](#) > [Metal Screws](#)

240 TORX Screws To Fit Popular Rings & Bases; Includes T-10 & T-15 Heads

A TORX head lets you set a screw down tight without the bit slipping and damaging the screw slot. They give your work a clean, finished appearance. We've included T-10 and T-15 TORX sizes for use in different applications. T-10 gives you plenty of additional wall thickness where the head joins the shank; T-15 has a large socket that accepts the same driver supplied with many popular brands of rings and bases. You get an economically priced assortment of 240 screws, all made right here in the USA. 1 dozen each of 20 different screws; 11 Fillister Head and 9 Weaver Oval Head styles in 3 thread sizes and 4 lengths, all in a sturdy, compartmented box. For those special jobs we have included a hardened steel, Checker/Shortener Jig that makes grinding screws to just the right length, fast and easy. The Weaver Ring/Burris Ring alt hd screws must have the head diameter reduced to fit the Burris rings.

TORX HEAD SCOPE RING & BASE SCREW KIT T15 FILLISTER HEAD SCREW 840 X 1/4 12 PACK Safety Instructions

Introduction

Thank you for choosing the TORX Head Scope Ring & Base Screw Kit. This product has been designed with safety and quality in mind. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always use the screws and tools as intended to avoid accidents and injuries.
- Store the product in a cool, dry place, out of reach of children and pets.
- Inspect screws and tools before use. Do not use damaged or worn items.
- Follow all local regulations regarding the use and disposal of metal products.

Specific Safety Precautions for Use

- Use the correct size TORX wrench (T10 or T15) for installation to prevent slipping and damage.
- Ensure that the surface you are working on is stable and secure.
- Wear appropriate safety gear, such as safety glasses and gloves, when handling screws and tools.
- Be cautious of sharp edges on screws and tools to avoid cuts or punctures.
- Keep your work area clean and free of clutter to prevent accidents.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including the T10 and T15 TORX wrenches, screws, and a compartmented kit box.
- Ensure your work area is welllit and organized.

2. Installation:

- Select the appropriate screw size (640, 648, or 840 tpi) based on your application.
- Align the screw with the mounting hole.
- Insert the screw and use the T10 or T15 TORX wrench to tighten it securely. Avoid overtightening to prevent stripping the screw head.
- For special jobs requiring the use of the Checker/Shortener Jig, follow the jig instructions to adjust screw lengths as needed.

3. PostInstallation:

- After installation, doublecheck that all screws are securely fastened.
- Dispose of any unused screws and packaging materials responsibly.

Disposal Instructions

- Dispose of the screws and packaging materials in accordance with local waste disposal regulations.
- Recycle materials where possible.

Contact Information for Further Support

For any inquiries regarding safety or product usage, please contact your local distributor or manufacturer. Ensure you have your product details ready for reference.

By following these safety instructions, you can ensure a safe and effective experience with your TORX Head Scope Ring & Base Screw Kit. Thank you for your attention to safety!
