[Gunsmith Tools](#) > [Barrel Tools](#) > [Barrel Chamfering Tool Kits](#)

## **Break Sharp Edges On Rifle & Handgun Muzzles; Get Faster Cylinder Filling On Revolvers**

45° chamfering cutter breaks the edges of the rifling for a clean bullet exit or chamfers revolver cylinder chamber mouths for quick reloads. Includes the cutter, a handle and one pilot, all in a polypropylene box. Interchangeable pilot keeps cutter properly aligned. Purchase extra pilots to use one cutter for many different calibers. Pilots for other calibers available separately. The 45° Cutter supplied in Sets marked with an \* is 5/8" dia. to correctly chamfer the larger barrel and cylinder mouths on those calibers. All other Sets have a 1/2" diameter, 45° cutter.

45\ Cutter & Brass Pilot fits .22 Centerfire Muzzle

Select one of the following for other rifle/handgun muzzles, cylinder facing & chamfering tools.

# Safety Instruction Guide for 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot

## Introduction

Thank you for choosing the 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot by Brownells. This guide provides essential safety instructions and usage guidelines to ensure your safety while using this product. Please read all instructions carefully before use.

## General Safety Guidelines

- Always use the cutter in a welllit and clean workspace.
- Ensure that you are wearing appropriate personal protective equipment (PPE), including safety goggles and gloves.
- Keep the tool out of reach of children and unauthorized users.
- Inspect the tool for any damage before use. Do not use if damaged.
- Follow all local regulations regarding the use of tools and firearms.

## Specific Safety Precautions for Use

- **Hazard Identification:**

- Sharp edges: The cutter has sharp blades that can cause cuts or injuries.
- Flying debris: Chips and debris can be produced during use, posing a risk to eyes and skin.
- Improper handling: Incorrect use can lead to accidents or tool damage.

- **Avoiding Hazards:**

- Always point the cutter away from yourself and others when in use.
- Secure the workpiece properly before cutting to prevent movement.
- Do not attempt to catch or touch debris while the cutter is in operation.
- Use the cutter only for its intended purpose.

## Instructions for Installation and Usage

- **Installation:**

1. Select the appropriate pilot for your caliber. For .45 ACP, use the .45 ACP1 or .45 ACP2 as specified.
2. Attach the brass pilot securely to the chamfer cutter.
3. Ensure that all components are tightly secured before starting work.

- **Usage:**

1. Place the muzzle or cylinder of the firearm securely in a vice or stable surface.
2. Align the chamfer cutter with the edge of the muzzle or cylinder.
3. Apply gentle pressure and rotate the cutter in a clockwise direction.
4. Check the progress frequently to avoid overchamfering.
5. After use, clean the cutter and pilot to remove any debris.

## Disposal Instructions

- Dispose of any damaged or wornout tools according to local regulations for hazardous waste.
- Recycle materials where possible, including brass and aluminum components.
- Do not dispose of the product in regular household waste.

## Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the EUbased contact point associated with this product. It is recommended to check for recall updates on the EU's Safety Gate platform.

## Conclusion

By following the safety guidelines and instructions provided in this document, you can ensure a safe and effective experience with the 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot. Always prioritize safety and compliance with local regulations while using this product. Thank you for your attention to these important guidelines.
