

## **45° MUZZLE/CYLINDER CHAMFERING CUTTER & BRASS PILOT - 45 DEGREE FACING CUTTER & BRASS PILOT FOR .32-20 MUZZLE**

[Gunsmith Tools & Supplies](#) > [Barrel Tools](#) > [Barrel Chamfering Tool Kits](#)

### **Break Sharp Edges On Rifle & Handgun Muzzles; Get Faster Cylinder Filling On Revolvers**

45° chamfering cutter breaks the edges of the rifling for a clean bullet exit or chamfers revolver cylinder chamber mouths for quick reloads. Includes the cutter, a handle and one pilot, all in a polypropylene box. Interchangeable pilot keeps cutter properly aligned. Purchase extra pilots to use one cutter for many different calibers. Pilots for other calibers available separately. The 45° Cutter supplied in Sets marked with an \* is 5/8" dia. to correctly chamfer the larger barrel and cylinder mouths on those calibers. All other Sets have a 1/2" diameter, 45° cutter.

Select one of the following for other rifle/handgun muzzles, cylinder facing & chamfering tools.

# Safety Instruction Guide for 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot

## Introduction

Thank you for choosing the 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot. This product is designed for safely chamfering the edges of rifling and revolver cylinder chamber mouths. To ensure your safety and the effective use of this tool, please read the following safety instructions carefully.

## General Safety Guidelines

- Ensure you are using the product in a welllit and safe environment.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, while using the cutter.
- Keep the product out of reach of children and vulnerable individuals.
- Store the cutter and its components in the provided polypropylene box when not in use to prevent accidents.
- Regularly inspect the cutter for any signs of damage or wear before each use.

## Specific Safety Precautions for Use

- Only use the cutter as intended. Misuse may lead to injury or damage.
- Do not apply excessive force while using the cutter. Let the tool do the work.
- Ensure that the cutter is properly aligned with the pilot for accurate chamfering.
- Always follow the manufacturer's instructions for the specific caliber you are working with.
- Avoid using the cutter on materials other than those specified for this product.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools and materials before starting.
- Ensure the work area is clean and free from any obstructions.

### 2. Installing the Pilot

- Select the appropriate pilot for the caliber you are working with.
- Insert the pilot into the cutter, ensuring it is securely in place.

### 3. Using the Cutter

- Hold the cutter firmly by the handle.
- Position the cutter at a 45° angle to the muzzle or cylinder mouth.
- Apply gentle pressure and rotate the cutter to chamfer the edge. Do not force the cutter.
- Check the chamfered edge for uniformity and repeat if necessary.

### 4. PostUse Care

- Clean the cutter and pilot after use to remove any debris.
- Store the cutter and pilot in the polypropylene box provided.

## **Disposal Instructions**

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the cutter in regular household waste. Check with local authorities for proper disposal methods.

## **Contact Information for Further Support**

For any further inquiries or concerns regarding the safety and use of this product, please reach out to the designated contact point provided with your purchase.

By following these guidelines, you will help ensure your safety and the effective use of the 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot. Thank you for your attention to these important safety instructions.
