

45° MUZZLE/CYLINDER CHAMFERING CUTTER & BRASS PILOT - 45 DEGREE FACING CUTTER & BRASS PILOT FOR 8MM MUZZLE

[Gunsmith Tools & Supplies](#) > [Barrel Tools](#) > [Barrel Chamfering Tool Kits](#)

Break Sharp Edges On Rifle & Handgun Muzzles; Get Faster Cylinder Filling On Revolvers

45° chamfering cutter breaks the edges of the rifling for a clean bullet exit or chamfers revolver cylinder chamber mouths for quick reloads. Includes the cutter, a handle and one pilot, all in a polypropylene box. Interchangeable pilot keeps cutter properly aligned. Purchase extra pilots to use one cutter for many different calibers. Pilots for other calibers available separately. The 45° Cutter supplied in Sets marked with an * is 5/8" dia. to correctly chamfer the larger barrel and cylinder mouths on those calibers. All other Sets have a 1/2" diameter, 45° cutter.

Select one of the following for other rifle/handgun muzzles, cylinder facing & chamfering tools.

Safety Instructions for 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot

Introduction

Thank you for choosing the 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot. This product is designed to chamfer the edges of rifling for clean bullet exits and to chamfer revolver cylinder chamber mouths for quick reloads. To ensure your safety and the safe use of this product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure safe use of the chamfering cutter by following all instructions.
- Use the product only for its intended purpose as described in this manual.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Always wear appropriate safety gear, including eye protection, when operating the cutter.
- If you experience any difficulties or uncertainties regarding the use of the product, seek assistance before proceeding.

Specific Safety Precautions for Use

- Handle the cutter with care. The cutting edges are sharp and can cause injury.
- Use the cutter in a welllit area to ensure visibility and precision.
- Ensure that the cutter is securely attached to the handle before use.
- Avoid using excessive force when cutting to prevent damage to the cutter and ensure a clean chamfer.
- Always store the cutter in its polypropylene box when not in use to prevent accidental injury.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary components: cutter, handle, and pilot.
- Ensure that you have the appropriate pilot for the caliber you are working with.

2. Installation:

- Attach the pilot to the cutter by aligning the pilot with the cutter's base and securing it firmly.
- Ensure that the pilot is properly aligned to maintain accuracy during use.

3. Using the Cutter:

- Hold the handle securely with one hand while positioning the cutter against the muzzle or cylinder chamber mouth.
- Apply gentle, even pressure while rotating the cutter to chamfer the edge. Avoid applying excessive force.
- For best results, maintain a consistent angle and speed while cutting.

4. PostUse Care:

- Clean the cutter and pilot after each use to remove any debris or residue.
- Store the cutter and its components in the polypropylene box to protect them from damage.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the cutter or its components in regular household waste.
- If the product is damaged or no longer usable, consider recycling components where possible.

Contact Information for Further Support

For any safety inquiries or concerns regarding this product, please reach out to the designated EU contact point for assistance.

Please remember to report any unsafe products or accidents to the appropriate authorities and check for recall updates on the EU's Safety Gate platform. Your safety is our priority. Thank you for your attention to these important safety instructions.
