

45° MUZZLE/CYLINDER CHAMFERING CUTTER & BRASS PILOT - 45 DEGREE FACING CUTTER & BRASS PILOT FOR .375 MUZZLE

[Gunsmith Tools & Supplies](#) > [Barrel Tools](#) > [Barrel Chamfering Tool Kits](#)

Break Sharp Edges On Rifle & Handgun Muzzles; Get Faster Cylinder Filling On Revolvers

45° chamfering cutter breaks the edges of the rifling for a clean bullet exit or chamfers revolver cylinder chamber mouths for quick reloads. Includes the cutter, a handle and one pilot, all in a polypropylene box. Interchangeable pilot keeps cutter properly aligned. Purchase extra pilots to use one cutter for many different calibers. Pilots for other calibers available separately. The 45° Cutter supplied in Sets marked with an * is 5/8" dia. to correctly chamfer the larger barrel and cylinder mouths on those calibers. All other Sets have a 1/2" diameter, 45° cutter.

Select one of the following for other rifle/handgun muzzles, cylinder facing & chamfering tools.

Safety Instruction Guide for 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot

Introduction

Thank you for purchasing the 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot. This tool is designed to enhance your reloading experience by ensuring a clean bullet exit and quick reloads. To ensure safe and effective use of this product, please carefully read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always use the chamfering cutter in accordance with the manufacturer's instructions.
- Keep the tool out of reach of children and vulnerable individuals.
- Inspect the tool for any damage or wear before each use. Do not use if damaged.
- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the tool.
- Ensure that your workspace is clean and well-lit to prevent accidents.
- Do not use the tool for any purpose other than its intended use.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that the cutter is securely attached to the handle before use to prevent accidents.
- Always chamfer in a well-ventilated area to avoid inhaling any dust or debris.
- Avoid wearing loose clothing or jewelry that could become entangled in the tool.
- Do not apply excessive force when using the cutter; let the tool do the work.
- Store the cutter and pilots in their original packaging or a secure location when not in use.
- Be cautious when handling the cutter, as the edges are sharp and can cause injury.

Instructions for Installation and Usage

1. Assembly:

- Remove the cutter, handle, and pilot from the packaging.
- Attach the desired pilot to the cutter. Ensure it is securely locked in place.
- Attach the cutter to the handle by following the manufacturer's instructions.

2. Using the Cutter:

- Position the cutter at a 45° angle against the edge of the muzzle or cylinder chamber.
- Apply gentle pressure and rotate the cutter in a clockwise direction.
- Continue until the edge is chamfered to your satisfaction.
- Check the chamfered edge for smoothness and uniformity.

3. Changing Pilots:

- To change the pilot, detach the cutter from the handle.
- Remove the current pilot and replace it with the desired one.
- Reattach the cutter to the handle securely.

Disposal Instructions

- Dispose of any damaged or wornout tools in accordance with local regulations.
- If the tool is no longer usable, consider recycling materials where possible.
- Do not dispose of the tool in regular household waste.

Contact Information for Further Support

For any inquiries regarding safety or product usage, please contact your local distributor or refer to the manufacturer's website for assistance.

Thank you for choosing the 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot. Your safety is our priority; please follow these guidelines to ensure a safe and effective experience.
