

45° MUZZLE/CYLINDER CHAMFERING CUTTER & BRASS PILOT - BROWNELLS 45 DEGREE FACING CUTTER & BRASS PILOT FOR .38-40 MUZZLE

[Gunsmith Tools](#) > [Barrel Tools](#) > [Barrel Chamfering Tool Kits](#)

Break Sharp Edges On Rifle & Handgun Muzzles; Get Faster Cylinder Filling On Revolvers

45° chamfering cutter breaks the edges of the rifling for a clean bullet exit or chamfers revolver cylinder chamber mouths for quick reloads. Includes the cutter, a handle and one pilot, all in a polypropylene box. Interchangeable pilot keeps cutter properly aligned. Purchase extra pilots to use one cutter for many different calibers. Pilots for other calibers available separately. The 45° Cutter supplied in Sets marked with an * is 5/8" dia. to correctly chamfer the larger barrel and cylinder mouths on those calibers. All other Sets have a 1/2" diameter, 45° cutter.

Select one of the following for other rifle/handgun muzzles, cylinder facing & chamfering tools.

Safety Instruction Guide for 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot

Introduction

Thank you for purchasing the 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot. This guide provides essential safety information, usage instructions, and disposal guidelines to ensure your safety and the effective use of this product. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as a chamfering tool.
- Always keep the product out of reach of children and vulnerable individuals.
- Inspect the product for any damage before use. Do not use if damaged.
- Wear appropriate personal protective equipment (PPE) such as safety goggles and gloves when using the cutter.
- Store the product in a secure and dry location to prevent accidental injury.

Specific Safety Precautions for Use

- Handle the cutter with care. The cutting edges are sharp and can cause injury.
- Always use the cutter with the provided handle to maintain control.
- Do not attempt to modify or alter the cutter or its components.
- Ensure the cutter is properly aligned with the pilot before use to avoid misalignment and potential injury.
- Use the cutter only on materials it is designed for (e.g., .3840 muzzle and revolver cylinder chamber mouths).
- Keep hands and other body parts away from the cutting area during use.
- If the cutter becomes stuck, stop using it immediately and assess the situation before attempting to free it.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary components: the cutter, handle, and pilot.
- Ensure you are working in a welllit and clean area.

2. Installation:

- Attach the pilot to the cutter securely.
- Insert the cutter into the handle, ensuring it is firmly in place.

3. Usage:

- Position the cutter at a 45° angle to the muzzle or cylinder chamber mouth.
- Apply gentle, even pressure while rotating the cutter to chamfer the edge.
- Monitor the cutting process to ensure proper alignment and avoid overchamfering.
- After use, remove the cutter from the handle and clean it to remove debris.

4. PostUsage:

- Store the cutter and its components in the provided polypropylene box.
- Ensure all components are dry before storage to prevent corrosion.

Disposal Instructions

- Dispose of the product in accordance with local regulations for metal and plastic waste.
- Do not dispose of the cutter in regular household waste if it is damaged or contains hazardous materials.
- Consider recycling the product if possible, following local recycling guidelines.

Contact Information for Further Support

For any inquiries regarding product safety, usage, or support, please refer to the manufacturer's contact information provided with the product packaging.

By following these safety instructions, you can ensure a safe and effective experience with your 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot. Thank you for prioritizing safety!
