

45° MUZZLE/CYLINDER CHAMFERING CUTTER & BRASS PILOT - 45 DEGREE FACING CUTTER & BRASS PILOT FOR .41 CYLINDER

[Gunsmith Tools & Supplies](#) > [Barrel Tools](#) > [Barrel Chamfering Tool Kits](#)

Break Sharp Edges On Rifle & Handgun Muzzles; Get Faster Cylinder Filling On Revolvers

45° chamfering cutter breaks the edges of the rifling for a clean bullet exit or chamfers revolver cylinder chamber mouths for quick reloads. Includes the cutter, a handle and one pilot, all in a polypropylene box. Interchangeable pilot keeps cutter properly aligned. Purchase extra pilots to use one cutter for many different calibers. Pilots for other calibers available separately. The 45° Cutter supplied in Sets marked with an * is 5/8" dia. to correctly chamfer the larger barrel and cylinder mouths on those calibers. All other Sets have a 1/2" diameter, 45° cutter.

Select one of the following for other rifle/handgun muzzles, cylinder facing & chamfering tools.

Safety Instruction Guide for 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot

Introduction

Thank you for purchasing the 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot. This product is designed to enhance your reloading experience by providing clean and efficient chamfering of revolver cylinder chambers. To ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR), please read and follow these safety instructions carefully.

General Safety Guidelines

- Always inspect the cutter, handle, and pilot for any damage before use. Do not use if any part is damaged.
- Keep the cutter and pilots out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose as described in the product specifications.
- Ensure a clean and organized workspace to avoid accidents during use.
- Wear appropriate personal protective equipment (PPE), including safety goggles and gloves, to prevent injury.
- Be aware of your surroundings and ensure that no one is in proximity to the working area while using the cutter.

Specific Safety Precautions for Use

- Handle the cutter and pilots with care to avoid cuts or injuries.
- Always use the cutter with the appropriate pilot for the caliber you are working with.
- Do not apply excessive force when using the cutter; let the tool do the work.
- Ensure the cutter is securely attached to the handle before use.
- Avoid wearing loose clothing or jewelry that may get caught in the tool during operation.
- If the cutter becomes dull or ineffective, replace it immediately to prevent accidents.

Instructions for Installation and Usage

1. Assembly:

- Select the appropriate pilot for your caliber.
- Attach the pilot to the cutter by aligning it with the designated slot and securing it in place.
- Ensure the cutter is firmly attached to the handle.

2. Using the Cutter:

- Position the revolver cylinder securely on a stable surface.
- Insert the cutter into the chamber to chamfer the edges.
- Rotate the cutter gently while applying light pressure until the desired chamfer is achieved.
- Remove the cutter and inspect the chamfered edge for quality.

3. Maintenance:

- Clean the cutter and pilots after each use to remove debris and prevent rust.
- Store the cutter and pilots in the provided polypropylene box to protect them from damage.

Disposal Instructions

- Dispose of any damaged or wornout parts in accordance with local regulations for metal waste.
- Do not dispose of the product in household waste. Instead, take it to a designated recycling facility for proper disposal.

Contact Information for Further Support

For any safety inquiries or further support related to this product, please refer to the manufacturer's contact information provided with your purchase.

By following these guidelines, you can ensure a safe and efficient experience with your 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot. Thank you for prioritizing safety!
