

45° MUZZLE/CYLINDER CHAMFERING CUTTER & BRASS PILOT - 45 DEGREE FACING CUTTER & BRASS PILOT FOR .45 BP MUZZLE

[Gunsmith Tools & Supplies](#) > [Barrel Tools](#) > [Barrel Chamfering Tool Kits](#)

Break Sharp Edges On Rifle & Handgun Muzzles; Get Faster Cylinder Filling On Revolvers

45° chamfering cutter breaks the edges of the rifling for a clean bullet exit or chamfers revolver cylinder chamber mouths for quick reloads. Includes the cutter, a handle and one pilot, all in a polypropylene box. Interchangeable pilot keeps cutter properly aligned. Purchase extra pilots to use one cutter for many different calibers. Pilots for other calibers available separately. The 45° Cutter supplied in Sets marked with an * is 5/8" dia. to correctly chamfer the larger barrel and cylinder mouths on those calibers. All other Sets have a 1/2" diameter, 45° cutter.

Select one of the following for other rifle/handgun muzzles, cylinder facing & chamfering tools.

Safety Instructions for 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot

Introduction

Thank you for choosing the 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot. This product is designed to enhance the performance of your firearm by ensuring clean bullet exits and quick reloads. To ensure safe and effective use of this product, please carefully read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that you are familiar with the operation of firearms before using this product.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the cutter.
- Keep the cutter and pilots out of reach of children and unauthorized users.
- Do not use the cutter for any purpose other than its intended use.
- Regularly inspect the cutter and pilots for any signs of damage or wear before each use.
- If you notice any defects or malfunctions, discontinue use immediately and contact the manufacturer for support.

Specific Safety Precautions for Use

- *Hazard Identification:* The primary hazards associated with the use of this product include cuts and injuries from sharp edges, as well as potential eye injuries from debris.
- *Avoiding Hazards:*
 - Handle the cutter and pilots with care to prevent cuts.
 - Always ensure that the cutter is securely attached to the handle before use.
 - Use the cutter in a welllit area to clearly see what you are doing.
 - Do not apply excessive force while using the cutter; let the tool do the work.
 - Ensure that the workpiece is securely held in place before using the cutter to avoid slips.

Instructions for Installation and Usage

- *Installation:*

1. Select the appropriate pilot for your caliber.
2. Align the pilot with the cutter and insert it into the designated slot.
3. Ensure that the pilot is securely locked in place before proceeding to use the cutter.

- *Usage:*

1. Position the firearm securely on a stable surface.
2. Place the cutter against the edge of the barrel or cylinder mouth that requires chamfering.
3. Apply gentle pressure and rotate the cutter in a circular motion to chamfer the edge.
4. After use, clean the cutter and pilot to remove any debris and lubricate as necessary.

Disposal Instructions

- Dispose of any damaged or worn parts responsibly, following local regulations for hazardous waste disposal.
- Do not dispose of the cutter or pilots in regular household waste. Instead, contact your local waste management facility for proper disposal instructions.

Contact Information for Further Support

For any questions or concerns regarding the use of this product, please refer to the manufacturer's contact information provided on the packaging or product insert.

By following these safety instructions, you can ensure a safe and effective experience with your 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot. Always prioritize safety and proper handling to enjoy the full benefits of your tool.
