

# **45° MUZZLE/CYLINDER CHAMFERING CUTTER & BRASS PILOT - 45 DEGREE FACING CUTTER & BRASS PILOT FOR 7MM MUZZLE**

[Gunsmith Tools & Supplies](#) > [Barrel Tools](#) > [Barrel Chamfering Tool Kits](#)

## **Break Sharp Edges On Rifle & Handgun Muzzles; Get Faster Cylinder Filling On Revolvers**

45° chamfering cutter breaks the edges of the rifling for a clean bullet exit or chamfers revolver cylinder chamber mouths for quick reloads. Includes the cutter, a handle and one pilot, all in a polypropylene box. Interchangeable pilot keeps cutter properly aligned. Purchase extra pilots to use one cutter for many different calibers. Pilots for other calibers available separately. The 45° Cutter supplied in Sets marked with an \* is 5/8" dia. to correctly chamfer the larger barrel and cylinder mouths on those calibers. All other Sets have a 1/2" diameter, 45° cutter.

Select one of the following for other rifle/handgun muzzles, cylinder facing & chamfering tools.

# Safety Instruction Guide for 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot

## Introduction

Thank you for purchasing the 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot. This product is designed to enhance your reloading experience by providing precise chamfering of barrel and cylinder mouths. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Always use the product in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product for any damage before use. Do not use if damaged.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves during operation.
- Store the product in a dry and secure location to prevent unauthorized access.

## Specific Safety Precautions for Use

- Ensure that the cutter is securely attached to the handle before use.
- Always keep hands and body clear of the cutting area to avoid injury.
- Do not attempt to modify the cutter or handle in any way.
- Use the cutter only for its intended purpose of chamfering barrel and cylinder mouths.
- Avoid using excessive force when operating the cutter to prevent breakage or injury.
- If you experience any discomfort or unusual resistance while using the cutter, stop immediately and inspect the tool.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary components: cutter, handle, and pilot.
- Ensure you have a clean and stable workspace.

### 2. Attaching the Pilot:

- Select the appropriate pilot for your caliber. Ensure it is compatible with the cutter.
- Insert the pilot into the cutter until it is securely in place.

### 3. Using the Cutter:

- Firmly grasp the handle with one hand and the firearm or part being chamfered with the other.
- Align the cutter with the edge of the barrel or cylinder mouth.
- Apply gentle pressure and rotate the cutter in a clockwise direction to chamfer the edge.
- Check the chamfering progress regularly to avoid overchamfering.

### 4. Cleaning and Maintenance:

- After use, clean the cutter and pilot with a dry cloth to remove any debris.
- Store the cutter and pilot in the provided polypropylene box to protect them from damage.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in household waste. Check for local recycling options or hazardous waste disposal facilities.

## **Contact Information for Further Support**

For any inquiries regarding product safety or usage, please refer to the manufacturer's contact information provided with your product.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective experience with your 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot. Always prioritize safety and proper usage to maximize the benefits of this tool. Thank you for choosing our product.
