

# ACRAGLAS® HARDENER & RESIN - BROWNELLS ACRAGLAS RESIN 120 OZ & HARDENER 30 OZ KIT

[Gunsmith Tools](#) > [Stock Work & Finishing](#) > [Stock Bedding & Adhesives](#)

Hardener and Resin to restock your Acraglas Kits. Both can be purchased together or individually in various container sizes. The word ACRAGLAS has proven, during the many years it has been used by shooters, to be a true and fair product description. For Acraglas, as its name implies, is an accurizing material designed for the exclusive purpose of making a rifle shoot more accurately. Granted, it is a superior bedding compound used and sold as such by dealers, stock manufacturers and gunsmiths - but the fact remains: its prime purpose is to accurize a rifle. THE AMERICAN RIFLEMAN To quote L.R.W. in the American Rifleman Dope Bag, "Acraglas will be found an excellent preparation to correct poor bedding and the revitalized rifle should respond with considerably better accuracy." "It's a boon for the lazy, too, because if you are inletting a stock blank you simply cut out too much wood all the way around, gob the wood well with Acraglas, put the metal in (properly treated with release agent coming with the kit) and set aside for about 24 hours. When the metal is removed, the result is perfect bedding for the action - good, strong, and reliable bedding it is, too." PROVEN IN THE FIELD As the manufacturers of Acraglas, we cannot help but be very proud, too, of the many individual shooters and teams who have won big bore regional and Perry matches with Acraglassed guns ... and of the hunters who have sent us "before and after" targets made when sighting in their game rifles after using Acraglas. The basic materials used in Acraglas are those developed for the aircraft industry. These we have adapted to gun work.

## Attributes

- Name: [BROWNELLS ACRAGLAS RESIN 120 OZ & HARDENER 30 OZ KIT](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 081005120
- Mfr. No.:
- Size: 120 oz.,30 oz.
- Type: Acraglas
- Quantity: 30
- Delivery weight: 5.398kg
- Shipping height: 25mm
- Shipping width: 25mm
- Shipping length: 25mm
- UPC: 050806013636

# ACRAGLAS® Hardener & Resin Safety Instructions

## Introduction

Thank you for choosing the ACRAGLAS® Hardener & Resin Kit by BROWNELLS. This product is designed to enhance the accuracy of your rifle through effective bedding. While using this product, it is important to follow safety guidelines to ensure safe and effective use. This guide provides essential safety instructions and precautions to help you use the product correctly.

## General Safety Guidelines

- Always read the product label and safety data sheet before use.
- Ensure proper ventilation in the workspace to avoid inhaling fumes.
- Keep the product out of reach of children and pets.
- Use protective gear, including gloves and safety goggles, when handling the product.
- Avoid contact with skin and eyes. In case of exposure, rinse immediately with plenty of water.
- Do not ingest the product. If swallowed, seek medical attention immediately.
- Store the product in a cool, dry place, away from direct sunlight and heat sources.
- Dispose of any unused product and containers according to local regulations.

## Specific Safety Precautions for Use

- Before starting, ensure you are working in a wellventilated area.
- Wear appropriate personal protective equipment (PPE), including:
  - Gloves to protect your skin.
  - Safety goggles to protect your eyes.
- Do not mix the hardener and resin in unventilated spaces.
- Avoid using the product near open flames or sparks.
- If you experience dizziness, headache, or nausea, stop using the product and move to fresh air.
- Do not use the product if you are allergic to epoxy or similar compounds.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the surfaces to be bonded are clean and free from dust, grease, and moisture.
- Gather all necessary tools and materials before starting.

### 2. Mixing:

- Follow the mixing instructions provided on the product label.
- Use a clean, dry container for mixing the hardener and resin.
- Mix thoroughly until a uniform color and consistency is achieved.

### 3. Application:

- Apply the mixed Acraglas to the desired area using a suitable applicator.
- Ensure even distribution to achieve optimal bonding.
- Avoid applying excess material, as it may lead to complications during curing.

### 4. Curing:

- Allow the applied Acraglas to cure for at least 24 hours.
- Do not disturb the product during the curing process.
- After curing, inspect the bond for any irregularities before using the firearm.

#### **5. Cleanup:**

- Clean any spills immediately with a suitable solvent.
- Dispose of any used applicators and containers according to local regulations.

## **Disposal Instructions**

- Dispose of any unused product in accordance with local waste disposal regulations.
- Do not pour the product down drains or dispose of it in regular trash.
- Contact your local waste management facility for guidance on proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of ACRAGLAS® Hardener & Resin, please refer to the product label for contact information or consult your local dealer for assistance.

By following these safety instructions, you can ensure a safe and effective experience while using the ACRAGLAS® Hardener & Resin Kit. Thank you for your attention to safety and for choosing our product.
