

# ACRAGLAS GEL® RESIN & HARDENER - ACRAGLAS GEL HARDENER & RESIN SET 8OZ

[Gunsmith Tools & Supplies](#) > [Stock Work & Finishing](#) > [Stock Bedding & Adhesives](#)

Replenish Acraglas Gel Kits with individual containers or the bundle of Resin & Hardener. Available in various sizes to suit your shop requirements. Nylon Derivatives are formulated into Acraglas Gel and provide greater "thin strength," shock resistance and stability over normal temperature extremes. Slightly less shrinkage than that of Acraglas, which has an amazing 1/10th of 1%. 1-to-1 mixing ratio gives a stable, molecular lattice structure to Acraglas Gel that will not crack, craze or sugar-out as will other 1-to-1 epoxies. Plus, this exclusive, 1-to-1 mix ratio, by volume, simplifies mixing and measuring small amounts accurately. Slightly longer pot life to give the user more time when doing the actual bedding. Longer cure time - The molecular structure of Acraglas Gel has been controlled so that for the first few hours after the epoxy sets it remains slightly flexible, making it easy to trim away excess compound. Readily blends with atomized aluminum, steel and stainless steel particles, thus making it possible for the user to create his own reinforced epoxy whenever such type epoxy is desired. Standard mix for optimum results is 1 part metal particles-to-3 parts mixed Acraglas Gel by volume. Can be dyed the same as Acraglas to match the characteristics of the gun stock being worked on. The above features of Acraglas Gel give you an idea of how completely we fulfilled your requests for a companion product for Acraglas ... The Acraglas Gel stay-in-one-spot feature ... sophisticated molecular structure ... slightly longer pot life and curing time ... the ability to mix in aluminum or steel, make this a product we are proud to offer to you.

## Attributes

- Name: [ACRAGLAS GEL HARDENER & RESIN SET 8OZ](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 081017116
- Mfr. No.: FGA0112RH8
- Model Number: Hardener & Resin
- Size: 16 oz.
- Type: Acraglas Gel
- Delivery weight: 0.685kg
- UPC: 050806013667

## SAFETY INSTRUCTIONS

### Introduction

Thank you for choosing ACRAGLAS GEL® RESIN & HARDENER. This guide provides essential safety instructions to ensure the safe use of this product. Please read and follow these guidelines carefully to protect yourself and others while using ACRAGLAS GEL.

### General Safety Guidelines

- Always use ACRAGLAS GEL in a wellventilated area to minimize inhalation of fumes.
- Keep the product out of reach of children and pets.
- Avoid contact with skin and eyes. Use appropriate personal protective equipment (PPE) such as gloves and safety goggles.
- Do not consume this product. It is not intended for food use.
- Follow all local regulations regarding the use and disposal of chemical products.

### Specific Safety Precautions for Use

- **Hazard Identification:** ACRAGLAS GEL may cause skin irritation and eye damage. Prolonged exposure to vapors may lead to respiratory issues.
- **Avoid Inhalation:** Do not inhale fumes or vapors. If you experience dizziness or headaches, move to fresh air immediately.
- **Skin Protection:** Wear protective gloves to prevent skin contact. Wash any exposed skin thoroughly with soap and water after use.
- **Eye Protection:** Always wear safety goggles to protect your eyes from splashes.
- **Ingestion:** If swallowed, do not induce vomiting. Seek medical attention immediately.
- **Spills:** In case of a spill, contain the area and clean up immediately using appropriate protective gear.

### Instructions for Installation and Usage

1. **Preparation:** Ensure that the surfaces to be bonded are clean, dry, and free of any contaminants.
2. **Mixing:** Use a 1to1 ratio of resin and hardener by volume. Measure accurately for optimal results.
3. **Application:** Apply the mixed product to the desired area using a suitable tool. Work quickly as the pot life is longer but can vary based on environmental conditions.
4. **Curing:** Allow the product to cure completely. The curing time may vary; ensure the area remains undisturbed during this period.
5. **Trimming:** After initial curing, excess material can be trimmed away easily.

### Disposal Instructions

- Dispose of any unused or expired ACRAGLAS GEL in accordance with local regulations.
- Do not pour down drains or dispose of in regular trash.
- Check with local waste management authorities for proper disposal methods.

### Contact Information for Further Support

For any questions or concerns regarding the use of ACRAGLAS GEL, please reach out to the manufacturer or your local distributor.

By following these safety instructions, you can ensure a safe and effective experience with ACRAGLAS GEL® RESIN & HARDENER. Thank you for your attention to safety!
