

ACRAGLAS GEL® RESIN & HARDENER - BROWNELLS ACRAGLAS GEL HARDENER 64OZ

[Gunsmith Tools](#) > [Stock Work & Finishing](#) > [Stock Bedding & Adhesives](#)

Replenish Acraglas Gel Kits with individual containers or the bundle of Resin & Hardener. Available in various sizes to suit your shop requirements. Nylon Derivatives are formulated into Acraglas Gel and provide greater "thin strength," shock resistance and stability over normal temperature extremes. Slightly less shrinkage than that of Acraglas, which has an amazing 1/10th of 1%. 1-to-1 mixing ratio gives a stable, molecular lattice structure to Acraglas Gel that will not crack, craze or sugar-out as will other 1-to-1 epoxies. Plus, this exclusive, 1-to-1 mix ratio, by volume, simplifies mixing and measuring small amounts accurately. Slightly longer pot life to give the user more time when doing the actual bedding. Longer cure time - The molecular structure of Acraglas Gel has been controlled so that for the first few hours after the epoxy sets it remains slightly flexible, making it easy to trim away excess compound. Readily blends with atomized aluminum, steel and stainless steel particles, thus making it possible for the user to create his own reinforced epoxy whenever such type epoxy is desired. Standard mix for optimum results is 1 part metal particles-to-3 parts mixed Acraglas Gel by volume. Can be dyed the same as Acraglas to match the characteristics of the gun stock being worked on. The above features of Acraglas Gel give you an idea of how completely we fulfilled your requests for a companion product for Acraglas ... The Acraglas Gel stay-in-one-spot feature ... sophisticated molecular structure ... slightly longer pot life and curing time ... the ability to mix in aluminum or steel, make this a product we are proud to offer to you.

Attributes

- Name: [BROWNELLS ACRAGLAS GEL HARDENER 64OZ](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 081017130
- Mfr. No.: FGA0112H64
- Model Number: -
- Size: 64 oz.
- Type: Acraglas Gel
- Quantity: 64
- Delivery weight: 1.95kg
- Shipping height: 132mm
- Shipping width: 185mm
- Shipping length: 183mm
- UPC: 050806101265

ACRAGLAS GEL® RESIN & HARDENER SAFETY INSTRUCTIONS

Introduction

Thank you for choosing ACRAGLAS GEL® RESIN & HARDENER by BROWNELLS. This product is designed for use in stock bedding and adhesive applications. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always use ACRAGLAS GEL in a wellventilated area to minimize inhalation of fumes.
- Keep the product out of reach of children and pets.
- Wear appropriate personal protective equipment (PPE), including gloves and safety goggles, when handling the resin and hardener.
- Avoid contact with skin and eyes. In case of contact, rinse immediately with plenty of water.
- Do not ingest. If swallowed, seek medical attention immediately.
- Store the product in a cool, dry place away from direct sunlight and heat sources.
- Dispose of any unused product and containers in accordance with local regulations.

Specific Safety Precautions for Use

• Hazard Identification:

- ACRAGLAS GEL may cause skin and eye irritation.
- Inhalation of vapors may cause respiratory irritation.
- Prolonged exposure to the product may lead to allergic reactions in sensitive individuals.

• Avoiding Hazards:

- Always follow the mixing instructions provided on the product label.
- Do not mix ACRAGLAS GEL in an enclosed space without proper ventilation.
- Ensure that all surfaces are clean and free from contaminants before applying the product.

• Age Specific Warnings:

- This product is not intended for use by children. Ensure adult supervision during use.

Instructions for Installation and Usage

• Preparation:

- Gather all necessary tools and materials before starting.
- Ensure that the work area is clean and organized.

• Mixing Instructions:

- Follow a 1to1 mixing ratio of resin to hardener by volume.
- Measure the required amounts accurately for optimal results.
- Mix thoroughly until a uniform consistency is achieved.

• Application:

- Apply the mixed ACRAGLAS GEL to the desired area using a suitable applicator.
- Allow for a slightly longer pot life to work with the product effectively.
- For best results, use the standard mix of 1 part metal particles to 3 parts mixed ACRAGLAS GEL by volume when reinforcing.

- **Curing:**

- Allow the product to cure as per the guidelines provided. The molecular structure will remain slightly flexible for the first few hours.
- Trim away any excess compound easily after initial curing.

- **PostApplication:**

- Clean tools and work surfaces immediately after use with appropriate solvents.
- Ensure that all materials are stored safely after use.

Disposal Instructions

- Dispose of any unused ACRAGLAS GEL and its containers according to local waste disposal regulations.
- Do not pour leftover resin or hardener down the drain.

Contact Information for Further Support

For any safety inquiries or additional information regarding ACRAGLAS GEL, please refer to the product label or visit the manufacturer's website.

Thank you for using ACRAGLAS GEL® RESIN & HARDENER. Your safety is our priority. Please follow these guidelines to ensure a safe and effective experience.
